

1911 STOCK BUSHINGS - 1911 STAINLESS STEEL STOCK BUSHINGS, 6 SETS OF 4 (24)

[Handgun Parts](#) > [Grip Parts](#) > [Grip Bushings](#)

Made to Original Factory Specs For Easy Replacement

The 1911 Government model auto is about as rugged as a mountain mule, but when you take the grips off to polish and reblue the critter or put on another set of grips, chances are that the stock frame bushing will be stripped. And, when you remove the frame bushings to get the best polishing job on the frame, you'll find yourself looking for new bushings. Standard Stock Bushing - Nicely made and finished, these special-sized, bushings are packed in sets of 4 Bushings. Stainless Steel (S/S) Stock Bushing - Look "right" on stainless steel and nickel-plated guns.

Safety Instruction Guide for 1911 Stock Bushings

Introduction

Thank you for choosing the 1911 Stock Bushings. This guide provides important safety information, installation instructions, and usage tips to ensure your safe and effective use of the product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that all tools and equipment used during installation are in good working condition.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling tools.
- Keep all components out of reach of children and pets.
- Do not use the product for any purpose other than intended.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check for product recalls on the EU Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:**

- Stripped frame bushings may cause instability when handling the firearm.
- Improper installation can lead to malfunction or injury.

- **Instructions for Avoiding Hazards:**

- Inspect the bushings for any damage before installation.
- Ensure that you are using the correct tools and techniques for installation.
- Do not force components together if they do not fit properly.

- **Age Specific Warnings:**

- This product is intended for use by individuals aged 18 and older.
- Keep the product and all tools used for installation away from children.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a 7/32" tap drill.
- Ensure you have a clean, welllit workspace.

2. Removing Old Bushings:

- Carefully remove the existing frame bushings from your firearm.
- Inspect the area for any debris or damage.

3. Installing New Bushings:

- Select the appropriate stock bushings (Standard or Stainless Steel).
- Insert the new bushing into the frame, ensuring a snug fit.
- Use the 7/32" tap drill to secure the bushing in place.

4. Final Checks:

- Once installed, check that all components are secure and functioning properly.
- Test the firearm in a safe environment to ensure proper operation.

Disposal Instructions

- Dispose of any old or damaged bushings responsibly.
- Follow local regulations for the disposal of metal products.
- Consider recycling old components where possible.

Contact Information for Further Support
