

1911 STOCK BUSHINGS - 1911 STANDARD STOCK BUSHINGS 24 PACK

[Handgun Parts](#) > [Grip Parts](#) > [Grip Bushings](#)

Made to Original Factory Specs For Easy Replacement

The 1911 Government model auto is about as rugged as a mountain mule, but when you take the grips off to polish and reblue the critter or put on another set of grips, chances are that the stock frame bushing will be stripped. And, when you remove the frame bushings to get the best polishing job on the frame, you'll find yourself looking for new bushings. Standard Stock Bushing - Nicely made and finished, these special-sized, bushings are packed in sets of 4 Bushings. Stainless Steel (S/S) Stock Bushing - Look "right" on stainless steel and nickel-plated guns.

Safety Instruction Guide for 1911 Stock Bushings

Introduction

Thank you for choosing the 1911 Stock Bushings. This guide provides essential safety instructions and guidelines to ensure the safe use and installation of your product. Please read this manual thoroughly before using the bushings.

General Safety Guidelines

- Always handle the bushings with care to avoid injury.
- Ensure that the work area is clean and free from distractions when installing or removing the bushings.
- Use appropriate tools and safety equipment (e.g., gloves, safety glasses) during installation.
- Keep the bushings out of reach of children and pets to prevent accidental ingestion or injury.
- Be aware of any potential hazards associated with firearms and follow all safety protocols.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before attempting to install or remove the bushings.
- Do not force the bushings into place; if they do not fit, check for obstructions or damage.
- Inspect the bushings for any signs of wear or damage before each use. Do not use damaged bushings.
- Store the bushings in a dry, secure location to prevent corrosion and damage.
- Follow the manufacturer's instructions for proper usage and installation to avoid accidents.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded and safe to handle.
- Gather necessary tools: a 7/32" tap drill and appropriate installation tools.

2. Removing Old Bushings:

- Carefully remove the grips from the firearm.
- Use the appropriate tool to gently unscrew and remove the old bushings.
- Inspect the area for any damage or debris.

3. Installing New Bushings:

- Take the new 1911 Stock Bushings from the package.
- Ensure that you are using the correct size for your firearm model.
- Align the bushing with the hole and gently screw it in place.
- Use the 7/32" tap drill as needed to ensure a proper fit.

4. Reinstalling Grips:

- Once the bushings are securely in place, reattach the grips to the firearm.
- Ensure that all screws are tightened properly without overtightening.

5. Final Inspection:

- Conduct a final inspection to ensure that everything is secure and properly installed.
- Test the firearm's functionality in a safe environment.

Disposal Instructions

- Dispose of any old or damaged bushings in accordance with local regulations.
- Ensure that all materials are disposed of safely to prevent environmental harm.

Contact Information for Further Support

For any questions or concerns regarding the 1911 Stock Bushings, please refer to the manufacturer's contact information included in the product packaging or visit the manufacturer's website for assistance.

Remember to always prioritize safety and follow the guidelines provided in this manual for a safe and enjoyable experience with your 1911 Stock Bushings.
