

BARREL VISES W/ BUSHINGS - BARREL VISE WITH #11 STEEL BUSHING I.D. 1.250"

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Barrel Vises](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

To complement our "Ring-Of-Steel" Action Wrench System, we've developed the only professional-quality Barrel Vise that will positively clamp and keep even the tightest barrel from turning during removal. Machined from solid steel for durability to service the barrel installation and removal needs of any gunsmith for years and years. Our exclusive four bolt system and extra-wide design generates so much holding force, the Brownells Barrel Vise must be firmly bolted to the stoutest bench or an immovable base to realize its full - potential. Split barrel bushings come in a variety of sizes to fit many popular barrels (and some not-so-common ones) to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service and have the necessary clamping power to break loose the tightest barrels. Aluminum Bushings also give a strong hold without risk of marring your barrel.

Safety Instruction Guide for BARREL VISES W/ BUSHINGS

Introduction

Thank you for purchasing the BARREL VISES W/ BUSHINGS. This product is designed to provide a secure and stable platform for barrel installation and removal. To ensure your safety and the effective use of this product, please read and follow the safety instructions carefully.

General Safety Guidelines

- Always use the Barrel Vise in accordance with the manufacturer's instructions.
- Ensure that the work area is clean and free from any hazards that may cause accidents.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the Barrel Vise and its components for wear or damage before each use.
- In case of any malfunction or defect, discontinue use immediately and contact the manufacturer for support.

Specific Safety Precautions for Use

- **Clamping Force:** Ensure that the Barrel Vise is securely fastened to a stable surface before use to prevent movement during operation.
- **Bushings:** Use the appropriate bushing size for the barrel being worked on to avoid damage to the barrel or the vise.
- **Personal Protective Equipment (PPE):** Always wear appropriate PPE such as safety glasses and gloves when using the Barrel Vise.
- **Tightening Bolts:** When tightening bolts, apply even pressure and avoid overtightening, which can lead to damage or failure.
- **Handling:** Always handle the Barrel Vise and its components with care to prevent injury.

Instructions for Installation and Usage

1. Installation:

- Choose a sturdy and stable workbench or surface for mounting the Barrel Vise.
- Use the provided ½"20 x 2" Allen head bolts to securely attach the Barrel Vise to the work surface.
- Ensure that the bottom block is drilled and countersunk for ½" diameter mounting bolts.

2. Using the Barrel Vise:

- Select the appropriate bushing size for your barrel.
- Insert the bushing into the Barrel Vise.
- Place the barrel into the bushing, ensuring a snug fit.
- Tighten the bolts to secure the barrel in place, applying even pressure.

3. Removing the Barrel:

- Ensure that the Barrel Vise is securely mounted.
- Loosen the bolts gradually to release the barrel.
- Carefully remove the barrel from the bushing.

Disposal Instructions

- Dispose of the Barrel Vise and its components in accordance with local regulations.
- Do not dispose of the product in general household waste.
- Consider recycling the materials where possible to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the safety and usage of the BARREL VISES W/ BUSHINGS, please refer to the manufacturer's contact information provided with your product packaging.

By following these guidelines, you can ensure safe and effective use of the BARREL VISES W/ BUSHINGS. Thank you for your attention to safety.
