# Safety Instruction Guide for QUARTER TANK BROWNELLS QUARTER BLUING TANK

## Introduction

Thank you for choosing the QUARTER TANK BROWNELLS QUARTER BLUING TANK. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this document carefully before using the bluing tank.

## General Safety Guidelines

- Ensure that the bluing tank is used in a wellventilated area to avoid inhaling any fumes.
- Keep the tank out of reach of children and pets.
- Always wear appropriate personal protective equipment (PPE), such as gloves and goggles, when handling bluing salts or solutions.
- Do not use the bluing tank for any purpose other than its intended use.
- Regularly inspect the tank for any signs of damage or wear before each use.
- Follow all local regulations regarding the disposal of chemicals and hazardous materials.

## Specific Safety Precautions for Use

- Before using the bluing tank, familiarize yourself with the materials and chemicals involved in the bluing process.
- Use only the recommended NitreBlue Bluing Salts or Oxynate solutions specified for this tank.
- Avoid contact with skin and eyes when handling chemicals; in case of contact, rinse immediately with plenty of water and seek medical attention if necessary.
- Ensure that the tank is placed on a stable, level surface to prevent spills or accidents.
- Do not exceed the maximum capacity of 1 gallon of solution to prevent overflow.
- If you experience any adverse reactions while using the product, stop using it immediately and seek medical advice.

## Instructions for Installation and Usage

### 1. Setup:

- Place the bluing tank on a stable, flat surface in a wellventilated area.
- Ensure that the tank is clean and free of any debris.

### 2. Filling the Tank:

- Carefully pour the recommended amount of NitreBlue Bluing Salts or Oxynate solution into the tank.
- Do not exceed the 1gallon capacity.

### 3. Using the Tank:

- Submerge the parts to be blued in the solution, ensuring they are fully covered.
- Follow the specific instructions provided with the bluing salts or solutions regarding immersion time and temperature settings.

### 4. PostUse:

- After use, carefully remove the parts from the tank and rinse them with clean water.

- Dispose of any leftover solution according to local regulations.

## **Disposal Instructions**

- Dispose of any unused or expired chemicals according to local hazardous waste disposal regulations.
- Do not pour chemicals down the drain or into the environment.
- Ensure that the bluing tank is cleaned thoroughly before disposal if it is no longer needed.

## **Contact Information for Further Support**

For any safety inquiries or assistance regarding the QUARTER TANK BROWNELLS QUARTER BLUING TANK, please refer to your local regulatory authority or the manufacturer's customer support.

Thank you for following these safety instructions. Your safety and the safe use of the QUARTER TANK BROWNELLS QUARTER BLUING TANK are our top priorities.
