

HOT WATER CLEANING TANK PIPE BURNER - HW/HT MIXER WITH SHUTTER, 3/4" I.D.

[Gunsmith Tools & Supplies](#) > [Metal Prep & Coloring](#) > [Metal Bluing](#) > [Pipe Burners & Components](#)

Saves Gas & Money On Heating Cleaner & Rinse Tanks

For Dicro-Clean 909"! cleaning solutions or hot water rinse tanks, you don't need as much burner capacity as our bluing tank pipe burner delivers. So, to save you gas, and some setup costs, we had these special Hot Water Cleaning Tank Burners designed. They have one row of specially sized and positioned holes in a 3/4" pipe. Includes a mixer head and the gas cock with either LP or Natural Gas orifice. (Don't use on the bluing tank; they won't make enough heat.)

Attributes

Safety Instruction Guide for HOT WATER CLEANING TANK PIPE BURNER HW/HT MIXER WITH SHUTTER

Introduction

Thank you for choosing the HOT WATER CLEANING TANK PIPE BURNER HW/HT MIXER WITH SHUTTER. This product is designed to provide efficient heating for DicroClean 909 cleaning solutions and hot water rinse tanks. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure that the burner is used in accordance with the manufacturer's instructions.
- Always operate the burner in a wellventilated area to prevent the buildup of harmful gases.
- Keep the burner away from flammable materials and surfaces.
- Regularly inspect the burner for any signs of damage or wear before use.
- Use the burner only with the recommended gas types: LP (Liquid Propane) or Natural Gas.
- Do not modify the burner or use it for any purpose other than intended.
- Ensure that children and pets are kept at a safe distance when the burner is in operation.

Specific Safety Precautions for Use

- Before lighting the burner, ensure that all gas connections are secure and leakfree.
- Use a gas leak detection solution to check for leaks. If bubbles form, there is a leak that must be addressed before use.
- Always follow the lighting instructions provided with the burner. Do not attempt to light the burner if you smell gas.
- Do not leave the burner unattended while in operation.
- Allow the burner to cool completely before attempting any maintenance or cleaning.
- In case of a gas leak or fire, evacuate the area immediately and contact emergency services.

Instructions for Installation and Usage

1. Installation

- Ensure that the burner is installed in a location that allows for adequate ventilation.
- Connect the burner to the gas supply using the 1/4" NPT pipe thread on the gas cock.
- Make sure to use the correct orifice for either LP or Natural Gas as specified in the product details.
- Verify that the gas pressure is set correctly: 11" w.c. for LP and 4"6" w.c. for Natural Gas.

2. Usage

- To light the burner, follow these steps:
 1. Open the gas cock slightly.
 2. Use a long lighter to ignite the burner at the designated lighting point.
 3. Adjust the flame as necessary to achieve the desired heat output.
- Monitor the burner during operation to ensure it is functioning properly.
- If the flame goes out, turn off the gas supply and wait at least five minutes before attempting to relight.

Disposal Instructions

- When disposing of the burner, follow local regulations for hazardous waste and gas appliances.
- Ensure that all gas connections are properly sealed and that the burner is empty of gas before disposal.
- Recycle any metal components where possible.

Contact Information for Further Support

For safety inquiries or further support regarding the HOT WATER CLEANING TANK PIPE BURNER HW/HT MIXER WITH SHUTTER, please refer to the manufacturer's contact information provided with your product.

By following these safety instructions, you can ensure a safe and effective experience with your HOT WATER CLEANING TANK PIPE BURNER HW/HT MIXER WITH SHUTTER. Thank you for your attention to safety.
