

HOT WATER CLEANING TANK PIPE BURNER - NATURAL GAS HWCT BURNER ORIFICE CAP

[Gunsmith Tools & Supplies](#) > [Metal Prep & Coloring](#) > [Metal Bluing](#) > [Pipe Burners & Components](#)

Saves Gas & Money On Heating Cleaner & Rinse Tanks

For Dicro-Clean 909"! cleaning solutions or hot water rinse tanks, you don't need as much burner capacity as our bluing tank pipe burner delivers. So, to save you gas, and some setup costs, we had these special Hot Water Cleaning Tank Burners designed. They have one row of specially sized and positioned holes in a ¾" pipe. Includes a mixer head and the gas cock with either LP or Natural Gas orifice. (Don't use on the bluing tank; they won't make enough heat.)

Safety Instruction Guide for HOT WATER CLEANING TANK PIPE BURNER

Introduction

Thank you for choosing the HOT WATER CLEANING TANK PIPE BURNER. This product is designed to provide efficient heating for DicroClean 909" cleaning solutions or hot water rinse tanks. To ensure your safety and the longevity of the product, please carefully read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure safe use of the burner by following all instructions and safety precautions.
- Be aware of potential hazards associated with gas burners, including fire and gas leaks.
- Regularly check for updates on product recalls or safety notices through the EU Safety Gate platform.
- If you notice any unsafe conditions or accidents, report them to the relevant authorities immediately.
- This product is not intended for use by children or individuals who require supervision.

Specific Safety Precautions for Use

- Do not use the HOT WATER CLEANING TANK PIPE BURNER on bluing tanks, as it will not generate sufficient heat.
- Ensure proper ventilation in the area where the burner is used to prevent the accumulation of dangerous gases.
- Always check the gas pressure before use:
 - Requires 11" (27.9 cm) w.c. for LP gas
 - Requires 4"6" w.c. for Natural Gas
- Inspect the burner regularly for any signs of wear or damage. Do not use if damaged.
- Keep flammable materials away from the burner during operation.
- Use appropriate personal protective equipment (PPE) when handling the burner or cleaning solutions.

Instructions for Installation and Usage

1. Installation:

- Ensure the installation area is free from flammable materials.
- Connect the burner to the gas supply, ensuring a secure fit on the 1/4" (6.3 mm) NPT pipe thread on the gas cock.
- Use a gas leak detection solution to check for leaks at all connections before use.

2. Usage:

- Before igniting the burner, check that all valves are in the closed position.
- Open the gas cock and allow gas to flow for a few seconds before igniting.
- Use a long lighter or match to ignite the burner from a safe distance.
- Adjust the flame as necessary to achieve the desired heating effect.
- Monitor the burner during operation and do not leave it unattended.

3. PostUsage:

- Turn off the gas supply and allow the burner to cool before handling.
- Clean the burner and surrounding area to remove any spills or residues.

Disposal Instructions

- When disposing of the HOT WATER CLEANING TANK PIPE BURNER, follow local regulations regarding hazardous waste.
- Ensure the burner is completely empty of gas before disposal.
- Recycle metal components where possible, and dispose of nonrecyclable parts in accordance with local waste management guidelines.

Contact Information for Further Support

For any safety inquiries or support related to the HOT WATER CLEANING TANK PIPE BURNER, please contact the manufacturer or your local distributor. Ensure you have the product details ready for reference.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities.
