## **Saves Gas & Money On Heating Cleaner & Rinse Tanks**

For Dicro-Clean 909"! cleaning solutions or hot water rinse tanks, you don't need as much burner capacity as our bluing tank pipe burner delivers. So, to save you gas, and some setup costs, we had these special Hot Water Cleaning Tank Burners designed. They have one row of specially sized and positioned holes in a 3/4" pipe. Includes a mixer head and the gas cock with either LP or Natural Gas orifice. (Don't use on the bluing tank; they won't make enough heat.)

## **Attributes**

# **Safety Instruction Guide for HOT WATER CLEANING TANK PIPE BURNER BROWNELLS 3/4" O.D. HW CLEANING TANK BURNER PIPE**

## **Introduction**

Thank you for choosing the HOT WATER CLEANING TANK PIPE BURNER from BROWNELLS. This guide is designed to provide you with important safety information and instructions for the proper use and maintenance of the burner. Please read this document carefully to ensure safe operation.

## **General Safety Guidelines**

- Ensure that the burner is used only for its intended purpose as specified in the product description.
- Always operate the burner in a wellventilated area to prevent the buildup of harmful gases.
- Keep the burner away from flammable materials and surfaces.
- Regularly inspect the burner for any signs of wear or damage before use.
- Do not attempt to modify the burner or use it in any manner not specified in this guide.
- If you experience any issues or malfunctions, discontinue use immediately and seek professional assistance.

## **Specific Safety Precautions for Use**

- Use only the recommended gas type (LP or Natural Gas) as specified in the product description.
- Ensure that the gas pressure is set correctly: 11" w.c. for LP and 4"6" w.c. for Natural Gas.
- Avoid using the burner on the bluing tank, as it will not generate sufficient heat.
- Do not leave the burner unattended while in operation.
- Keep children and pets away from the burner during use.
- Use personal protective equipment (PPE) such as gloves and safety goggles when handling the burner.

## **Instructions for Installation and Usage**

### **1. Installation:**

- Ensure that the installation area is clean and free from obstructions.
- Connect the burner to the gas supply using the 1/4" NPT pipe thread on the gas cock.
- Make sure all connections are secure and leakfree before proceeding.
- Install the mixer head as per the manufacturer's instructions.

### **2. Usage:**

- Open the gas cock to allow gas to flow to the burner.
- Use an appropriate ignition source to light the burner safely.
- Adjust the flame as necessary for optimal performance, ensuring that it remains stable and blue in color.
- Monitor the burner during operation to ensure safe functioning.

### **3. Shutdown:**

- Close the gas cock to stop the gas flow when finished.
- Allow the burner to cool down before handling or cleaning.

## **Disposal Instructions**

- Dispose of the burner in accordance with local regulations and guidelines for hazardous materials.
- Do not dispose of the burner in regular household waste.
- Contact local waste management authorities for information on safe disposal methods.

## **Contact Information for Further Support**

For further assistance or inquiries regarding safety and product use, please refer to the manufacturer's website or customer service resources.

By following these guidelines, you can ensure a safe and effective experience with your HOT WATER CLEANING TANK PIPE BURNER. Thank you for your attention to safety.
