

1911 MACHINED CONCEALED CARRY BEAVERTAIL GRIP SAFETY - 1911 MACHINED CC BEAVERTAIL GRIP SAFETY, BLUE 70 SERIES

[Handgun Parts](#) > [Safety Parts](#) > [Safeties](#)

Protection from Hammer Bite Without Sacrificing Concealability

The Ed Brown Concealed Carry Grip Safety is a modification of Ed's classic 1911 beavertail safety that gives you the benefit of the extended beavertail - protecting the web of your hand from "hammer bite" - without compromising compactness and concealability. The tail protrusion has been reduced by approximately 0.10". Also, the tail profile of the Ed Brown Concealed Carry Grip Safety has been machined to minimum dimensions, so you are free to install a standard Commander-style hammer, rather than having to buy a special (read, more costly) concealment hammer. Separate models for Series 70 and Series 80 1911 pistols (order carefully!) Fully machined from high-grade steel barstock Available in Blued carbon steel or natural matte silver/gray finish Stainless steel Gunsmith fitting required Series 80 requires fitting to .250" radiused frame ears The Concealed Carry Grip Safety from Ed Brown is the perfect choice for any 1911 pistol where the benefits of a beavertail safety are important but overall compactness and concealment are also a priority. Brownells Gun Tech™ Tip: For best fitting results, install using the Ed Brown Beavertail Installation Jig (#087-145-886), available separately.

Safety Instruction Guide for the 1911 Machined Concealed Carry Beavertail Grip Safety

Introduction

Thank you for choosing the Ed Brown 1911 Machined Concealed Carry Beavertail Grip Safety. This product is designed to enhance the safety and usability of your 1911 pistol while maintaining a compact and concealable profile. This guide provides essential safety instructions, installation guidance, and general care information to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the firearm is unloaded before installing or handling the grip safety.
- Always treat your firearm as if it is loaded, following all standard firearm safety rules.
- Keep the grip safety out of reach of children and unauthorized users.
- Regularly inspect the grip safety for any signs of wear or damage.
- If you experience any issues with the grip safety, cease use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

- The grip safety is designed for use with Series 70 and Series 80 1911 pistols. Ensure compatibility before installation.
- Use only standard Commanderstyle hammers with this grip safety to avoid fitting issues.
- Ensure proper fitting to the frame ears, especially for Series 80 models that require fitting to .250" radiused frame ears.
- If you are not experienced in gunsmithing, seek professional assistance for installation to avoid potential hazards.
- Always verify that the grip safety functions correctly before using the firearm.

Instructions for Installation and Usage

1. Preparation:

- Ensure your workspace is clean and organized.
- Gather necessary tools, including the Ed Brown Beavertail Installation Jig (#087145886), if available.

2. Installation Steps:

- Unload the firearm and remove the existing grip safety.
- Using the installation jig, align the new grip safety with the frame of the pistol.
- Carefully fit the grip safety into place, ensuring that it is seated properly.
- If required, perform any necessary fitting to ensure proper function.

3. Function Check:

- After installation, conduct a thorough function check of the grip safety.
- Ensure that the safety engages and disengages properly when the grip is activated.

4. Usage:

- When using the firearm, maintain a firm grip to engage the safety.
- Always ensure that the grip safety is functioning correctly before firing.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding firearms components.
- Do not dispose of the grip safety in regular household waste.
- If the product is damaged or no longer functional, consult with a local firearms dealer or gunsmith for proper disposal methods.

Contact Information for Further Support

- For any safety inquiries or concerns regarding the grip safety, please consult a qualified gunsmith or contact the manufacturer directly through their official website or customer service channels.

By following these guidelines, you can ensure the safe and effective use of your Ed Brown 1911 Machined Concealed Carry Beavertail Grip Safety. Always prioritize safety and proper handling practices when dealing with firearms. Thank you for your attention to these important safety instructions.
