# PACESETTER RIFLE THREEDIE SETS LEE PRECISION .204 RUGER PACESETTER 3DIE SET Safety Instruction Guide

## Introduction

Thank you for choosing the PACESETTER RIFLE THREEDIE SET from LEE PRECISION. This product is designed to assist you in the reloading process of .204 Ruger ammunition. To ensure safe and effective use, please read this safety instruction guide carefully before using the product. It is essential to follow all safety guidelines to prevent accidents and injuries.

## General Safety Guidelines

- Always handle reloading equipment with care and respect.
- Keep your workspace clean and organized to minimize hazards.
- Store all reloading components, including this die set, out of reach of children and vulnerable individuals.
- Follow all local laws and regulations regarding ammunition reloading and usage.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that you are using the die set with a compatible 7/8"14 reloading press.
- Always wear appropriate safety gear, including safety glasses, when reloading ammunition.
- Do not exceed recommended powder charges; refer to the load data provided.
- Do not use damaged or wornout components; inspect your equipment regularly.
- Avoid distractions while reloading to maintain focus and safety.
- Keep all materials, including primers and powder, in their original containers and store them properly.
- Be aware of your surroundings and ensure no unauthorized persons are nearby while reloading.

## Instructions for Installation and Usage

### 1. Setup

- Unpack the die set and ensure all components are present: Full Length Sizing Die, Bullet Seating Die, Factory Crimp Die, Universal Shell Holder, Powder Dipper, and Instructions/Load Data.
- Inspect each component for any damage before use.

### 2. Installing the Dies

- Attach the Full Length Sizing Die to your reloading press by screwing it into the press's die holder.
- Repeat the process for the Bullet Seating Die and Factory Crimp Die, ensuring they are securely fastened.

### 3. Using the Dies

- **Full Length Sizing Die:** Insert a fired casing into the die and operate the press to resize it. This ensures the casing fits properly in the chamber.
- **Bullet Seating Die:** Place a bullet on top of the charged casing and adjust the die to seat the bullet to the desired depth.
- **Factory Crimp Die:** Use this die to apply a crimp to the bullet, ensuring it is securely held in place.

#### **4. Powder Dipper Usage**

- Use the powder dipper to measure the appropriate amount of powder as per the load data provided. Ensure the powder is safely and accurately dispensed.

#### **5. Final Checks**

- After reloading, visually inspect each round for consistency and proper assembly.
- Store completed ammunition in a safe and secure location.

### **Disposal Instructions**

- Dispose of any unused or expired reloading components according to local regulations.
- Do not dispose of hazardous materials in regular trash; check with local waste management authorities for proper disposal methods.
- Ensure all packaging materials are recycled or disposed of responsibly.

### **Contact Information for Further Support**

For any safety inquiries, product support, or additional information, please refer to the official LEE PRECISION website or contact their customer service for assistance.

By adhering to these safety instructions, you ensure not only your safety but also the safety of those around you while enjoying the reloading process. Thank you for your attention to these important guidelines.
