PACESETTER RIFLE THREEDIE SET Safety Instructions

Introduction

Thank you for choosing the PACESETTER RIFLE THREEDIE SET by LEE PRECISION. This product is designed for reloading .358 Winchester cartridges and includes a Full Length Sizing Die, Bullet Seating Die, Factory Crimp Die, Universal Shell Holder, Powder Dipper, and Instructions/Load Data. To ensure your safety and the safe operation of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe use.
- Ensure that the reloading press you use is compatible with the PACESETTER RIFLE THREEDIE SET.
- Keep the workspace clean and organized to prevent accidents.
- Store all components in a cool, dry place away from direct sunlight and moisture.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading components.
- Be aware of your surroundings and keep children and pets away from your reloading area.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that you are familiar with the reloading process before starting. If you are a beginner, seek guidance from experienced reloaders or instructional materials.
- Only use components that are specifically designed for .358 Winchester cartridges.
- Do not exceed the recommended loads as specified in the load data provided.
- Always doublecheck measurements to avoid overcharging or undercharging the cartridges.
- Never use damaged or worn tools. Inspect all dies and equipment before use.
- Avoid distractions while reloading to maintain focus and accuracy.
- Dispose of used primers and other hazardous materials according to local regulations.

Instructions for Installation and Usage

1. Installation of the Dies:

- Securely install the Full Length Sizing Die into your reloading press according to the manufacturer's instructions.
- Install the Bullet Seating Die and Factory Crimp Die in the same manner, ensuring they are tightened properly.

2. Setting Up the Universal Shell Holder:

- Select the appropriate shell holder for .358 Winchester cartridges and install it into the reloading press.

3. Using the Powder Dipper:

- Use the provided Powder Dipper to measure the correct amount of powder for your loads. Always refer to the load data for guidance on powder types and amounts.

4. Reloading Process:

- Start by resizing the brass cases using the Full Length Sizing Die.
- Next, insert the bullets into the resized cases using the Bullet Seating Die.
- Finally, apply the factory crimp using the Factory Crimp Die to ensure the bullets are securely seated.

5. Final Inspection:

- Inspect each cartridge after reloading to ensure proper seating and crimping.
- Store completed cartridges in a safe and organized manner.

Disposal Instructions

- Dispose of used components, including spent primers and empty powder containers, in accordance with local regulations.
- Do not throw hazardous materials in regular waste. Check with your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further support regarding the PACESETTER RIFLE THREEDIE SET, please contact your local distributor or refer to the manufacturer's website for additional resources.

Thank you for your attention to these safety instructions. We wish you a safe and successful reloading experience!
