

358 WINCHESTER BRASS CASE - 358 WINCHESTER BRASS 50/BOX

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

Hornady unprimed brass features tight tolerances, uniform concentricity, consistent weight and capacity. Their manufacturing processes ensure consistent bullet seating and uniform bullet release for optimal velocity and accuracy. Target shooters insist on uniform case wall thickness and tight tolerances. Hornady delivers this by treating brass as the foundation for an accurate cartridge, not as a commodity.

Safety Instruction Guide for 358 Winchester Brass Case

Introduction

Thank you for choosing the 358 Winchester Brass Case by Hornady. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read this guide thoroughly before use to maximize safety and performance.

General Safety Guidelines

- Ensure you are familiar with the legal requirements for using ammunition components in your region.
- Always store brass cases in a cool, dry place away from direct sunlight and moisture.
- Keep brass cases out of reach of children and unauthorized users.
- Inspect brass cases for any signs of damage or wear before use.
- Do not use brass cases that have been altered or damaged.

Specific Safety Precautions for Use

- Wear appropriate eye and ear protection when reloading ammunition.
- Use only compatible components when reloading to avoid dangerous malfunctions.
- Follow the manufacturer's specifications for reloading data, including powder type and charge weight.
- Avoid overcharging the case; always doublecheck your measurements.
- Do not exceed the maximum pressure limits specified for the 358 Winchester cartridge.
- Handle all reloading equipment and components with care to prevent accidents.

Instructions for Installation and Usage

- **Preparation:**

- Ensure your workspace is clean and organized.
- Gather all necessary tools and materials, including reloading press, dies, and powder.

- **Reloading Process:**

1. Inspect each brass case for cleanliness and integrity.
2. Resize the brass case using the appropriate die.
3. Clean the primer pocket thoroughly.
4. Insert a new primer into the primer pocket.
5. Measure and add the correct amount of powder as per reloading data.
6. Seat the bullet to the specified depth, ensuring it is secure.

- **PostReloading:**

- Store reloaded ammunition in a designated container, clearly labeled with the load data.
- Regularly check reloaded ammunition for signs of wear or damage.

Disposal Instructions

- Dispose of any damaged or unusable brass cases in accordance with local regulations.
- Do not throw brass cases in regular trash. Check for recycling programs that accept metal casings.
- Ensure that any hazardous materials, such as spent primers or powder, are disposed of following local environmental regulations.

Contact Information for Further Support

For further assistance or inquiries regarding the 358 Winchester Brass Case, please refer to the provided contact information on the packaging or consult the manufacturer's website.

By following these safety guidelines and instructions, you can ensure a safe and enjoyable experience with your 358 Winchester Brass Case. Always prioritize safety and adhere to best practices while reloading ammunition. Thank you for your attention to these important safety measures.
