

338 WINCHESTER MAGNUM BRASS CASE - 338 WIN MAG BRASS 50/BOX

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

Hornady unprimed brass features tight tolerances, uniform concentricity, consistent weight and capacity. Their manufacturing processes ensure consistent bullet seating and uniform bullet release for optimal velocity and accuracy. Target shooters insist on uniform case wall thickness and tight tolerances. Hornady delivers this by treating brass as the foundation for an accurate cartridge, not as a commodity.

Safety Instruction Guide for 338 Winchester Magnum Brass Case

Introduction

Thank you for choosing the 338 Winchester Magnum Brass Case by Hornady. This product is designed for use in rifle shooting and is manufactured to high standards to ensure safety and performance. It is important to follow all safety guidelines and instructions to ensure a safe and effective experience.

General Safety Guidelines

- Ensure that you are of legal age to purchase and use ammunition components in your country.
- Always handle brass cases and ammunition components with care and respect, as they can be dangerous if misused.
- Store brass cases in a cool, dry place away from direct sunlight and moisture.
- Keep brass cases out of reach of children and pets.
- Regularly inspect your brass cases for any signs of damage or wear before use.
- Report any unsafe products or incidents to local authorities.

Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when handling or using firearms.
- Ensure that your firearm is compatible with 338 Winchester Magnum brass cases before use.
- Do not exceed recommended load data when reloading ammunition.
- Avoid using damaged or deformed brass cases, as they may cause malfunctions or accidents.
- Always follow the reloading instructions provided by your powder and bullet manufacturers.
- Keep your workspace clean and organized to avoid accidents during the reloading process.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials: brass cases, primers, powder, bullets, and reloading equipment.
- Ensure that your work area is clean and welllit.

2. Inspect Brass Cases:

- Check each brass case for cracks, dents, or other damage.
- Discard any cases that show signs of wear or damage.

3. Priming:

- Use a primer tool to insert primers into each brass case according to the manufacturer's instructions.

4. Charging:

- Measure the appropriate amount of powder using a scale.
- Carefully pour the powder into each brass case, ensuring that no powder is spilled.

5. Seating Bullets:

- Place the bullet on top of the charged brass case.
- Use a bullet seating die to press the bullet into the case to the specified depth.

6. Final Inspection:

- Inspect each completed round for proper bullet seating and overall appearance.
- Store completed rounds in a safe and secure manner.

Disposal Instructions

- Dispose of any damaged or unusable brass cases in accordance with local regulations.
- Do not throw brass cases in regular trash. Check for local recycling programs that accept brass materials.
- Ensure that all components are disposed of safely to prevent environmental harm.

Contact Information for Further Support

For any inquiries regarding safety or product information, please refer to the manufacturer's contact details provided with the product packaging or on the official website.

By following these guidelines and instructions, you can ensure a safe and enjoyable experience with your 338 Winchester Magnum Brass Case. Always prioritize safety and responsibility when handling ammunition components.
