

KEYMOD 1" RING LIGHT MOUNT - ARISAKA DEFENSE RING LIGHT MOUNT M-LOK 1"

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Mounts](#)

The Arisaka KeyMod Ring Light Mount provides a flexible yet secure way to attach tactical lights to your handguard. It uses a vertically anchored ring system which comes in two sizes to accommodate a wide variety of lights. The large ring will accept light bodies with a diameter from 1.00" to 1.03." The small ring will accept light bodies with a diameter from 0.84" to 0.88." A light can be installed and removed without having to take the mount off your handguard. The offset placement of the light while using the mount is designed to allow clearance with most front sights. For example, a 1.03" light like the Surefire G2 will work with the Magpul Gen 2 MBUS on a Noveske NSR, which is one of the thinnest handguards at 1.48" wide. The mount is CNC machined from 6061 aluminum and type III hard coat anodized. Fits standard KeyMod handguards.

Attributes

- Name: [ARISAKA DEFENSE RING LIGHT MOUNT M-LOK 1"](#)
- Manufacturer: [ARISAKA DEFENSE](#)
- Product no.: 100016554
- Mfr. No.: RLM-M-1

Arisaka KeyMod 1" Ring Light Mount Safety Instructions

Introduction

Thank you for choosing the Arisaka KeyMod 1" Ring Light Mount. This product is designed to securely attach tactical lights to your handguard, ensuring flexibility and safety during use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this manual.
- Regularly inspect the mount for any signs of wear or damage before each use.
- Always follow the installation and usage instructions to prevent accidents.
- Keep this product out of reach of children and vulnerable individuals.
- In case of any malfunction or if the product is damaged, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- The mount is designed to accommodate light bodies with specific diameters. Ensure that your light fits within the specified range:
 - Large ring: 1.00" to 1.03"
 - Small ring: 0.84" to 0.88"
- Avoid overtightening the mount, as this may damage the light or the mount itself.
- Ensure that the light is securely attached before use to prevent it from falling or becoming dislodged during operation.
- Be aware of the offset placement of the light to ensure it does not obstruct your view or interfere with the operation of your front sight.

Instructions for Installation and Usage

1. Installation:

- Select the appropriate ring size based on the diameter of your tactical light.
- Position the mount on the desired location of your KeyMod handguard.
- Securely attach the mount using the provided hardware, ensuring it is firmly in place.
- Insert your tactical light into the mount, ensuring it fits snugly within the ring.
- Tighten the mount's locking mechanism to secure the light in place. Do not overtighten.

2. Usage:

- After installation, check that the light is securely mounted before each use.
- Ensure that the light is turned off when not in use to conserve battery life and prevent accidental activation.
- Use the light in accordance with the manufacturer's instructions for your specific tactical light.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding electronic waste and metal recycling.
- Do not dispose of the product in household waste. Instead, take it to a designated recycling facility.

Contact Information for Further Support

For any questions or concerns regarding the Arisaka KeyMod 1" Ring Light Mount, please refer to the manufacturer's website or customer support channels. Always ensure that you have the product details and any relevant information ready when seeking assistance.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
