## INTERCHANGEABLE FUNNEL HEAD FOR 22 CALIBER

[Reloading](#) > [Powder Handling](#) > [Powder Funnels](#)

AREA 419 INTERCHANGEABLE FUNNEL HEADS CALIBER SPECIFIC This product listing is for a caliber specific funnel HEAD ONLY, no funnel or billet storage block included. The Area 419 billet aluminum powder funnel uses a system of interchangeable, caliber specific, heads to make it the ultimate funnel for reloaders available today. Universal plastic powder funnels have several issues that are solved with this system. Static cling, plastic is prone to being charged with static and kernels of powder will stick to the walls causing you to have to tap the funnel to get them all to fall. No such thing as universal. There are always cases that just won't work well with the universal design, and funnels tip off and spill powder, or they just plain won't work. Universal means that it has a hole meant for 22 caliber. So, if you are trying to dump 90 grains into a big magnum, you are waiting a long time for the powder to fill. The Area 419 Funnel's interchangeable heads thread onto the funnel and are neck diameter specific for each caliber (color coded to keep track of them). They do not rely on fitting over the body of the case to hold in place. They are sized slightly larger than the neck diameter so that they hold solid on the case. Each head has a bore sized a few thousandths smaller than the bullet diameter, so maximum flow is achieved for each caliber. This is huge for the super ultra magnum guys (375 Cheytac, 408 Cheytac, 50 BMG, etc.). The interface between the heads and the funnel is designed in such a way that no kernels can ever get stuck between the two, as long as the head is tightened completely. The Funnel's design is both aesthetic and performance driven. Being machined from a solid billet of 6061-T6 aluminum means no static charge to cling kernels to the funnel walls. This also makes it far safer for use with black powder. "Flutes" on the outside are for looks on the inside though, they disturb the powder kernels from trying to jam up at the neck. It also gives some airspace, so they do not get packed up so tightly, all aimed to increase flow through the nozzle. 3/8" tall straight section at the top to help prevent kernels of powder from bouncing out when poured in. Smooth surfaces at the neck of the funnel and inside the heads promote quick flow and prevent any sticking kernels. MADE IN USA! From USA made aluminum, on a USA made HAAS mill, with USA made cutting tools! SPECIFICATIONS: Weight: .1 lbs. Dimensions: .8 x .8 x .8 in Caliber: 17 CAL, 20 CAL, 22 CAL, 6MM/243, 25 CAL, 6.5MM/264, 270 CAL, 7MM/284, 30CAL, 338 CAL, 375 CAL, 408 CAL, 450 Rifle, 50BMG, Dillon Powder Die, Pistol, 3" Drop Tube

### Attributes

- Name: [AREA 419 INTERCHANGEABLE FUNNEL HEAD FOR 22 CALIBER](#)
- Manufacturer: [AREA 419](#)
- Product no.: 100029584
- Mfr. No.: 419-FN-HEAD-22
- Caliber: 22 Caliber (.223-.224)
- Delivery weight: 0.014kg
- Shipping height: 16mm
- Shipping width: 76mm
- Shipping length: 146mm
- UPC: 853675008600

# Safety Instruction Guide for AREA 419 Interchangeable Funnel Heads

## Introduction

Thank you for choosing the AREA 419 Interchangeable Funnel Heads for your reloading needs. This product is designed to enhance your reloading experience with its caliber-specific design, ensuring maximum efficiency and safety. This guide provides essential safety instructions and guidelines to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always ensure that your work area is clean and free from any distractions while using the funnel.
- Use the funnel only for its intended purpose as described in the product specifications.
- Keep the funnel and its interchangeable heads out of reach of children and vulnerable individuals.
- Inspect the funnel and heads for any signs of damage before each use. Do not use damaged components.
- Follow all local laws and regulations regarding the handling and use of reloading equipment and materials.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Static Electricity:** The funnel is designed to minimize static cling. However, avoid using the funnel in environments where static electricity is prevalent.
- **Handling Powder:** When using the funnel to dispense powder, do so slowly to prevent spillage and ensure that all kernels flow smoothly through the funnel.
- **Caliber Specificity:** Ensure that you are using the correct interchangeable head for the caliber you are working with. Using the wrong head can lead to improper flow and potential hazards.
- **Tightening Heads:** Always ensure that the interchangeable heads are securely tightened to prevent any kernels from getting stuck or causing a blockage.
- **Safety Gear:** Consider wearing safety glasses and gloves while reloading to protect against any accidental spills or mishaps.

## Instructions for Installation and Usage

### 1. Selecting the Head:

- Choose the appropriate caliber-specific head for your reloading needs.
- Check the color coding to ensure you have the correct head for your caliber.

### 2. Attaching the Head:

- Align the threads of the head with the funnel.
- Carefully screw the head onto the funnel until it is securely tightened.

### 3. Using the Funnel:

- Position the funnel over the case you are reloading.
- Slowly pour the powder into the funnel, allowing it to flow through the head into the case.
- Avoid shaking or tapping the funnel excessively, as this can cause powder spillage.

### 4. PostUse:

- After use, carefully detach the head from the funnel.
- Clean both the funnel and the head with a soft brush or cloth to remove any residual powder.

## **Disposal Instructions**

- Dispose of any unused or expired powder according to local regulations for hazardous materials.
- Recycle the funnel and interchangeable heads according to local recycling guidelines for aluminum products.
- Do not dispose of the funnel or heads in regular household waste.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or product support, please reach out to your local AREA 419 distributor or retailer.

By following these guidelines, you can ensure a safe and efficient reloading experience with the AREA 419 Interchangeable Funnel Heads. Thank you for choosing our product, and happy reloading!
