

CLASSIC BULLET SIZING KIT - LEE PRECISION 0.278" DIAMETER BULLET SIZING KIT

[Reloading](#) > [Bullet Casting](#) > [Lube & Sizer Dies](#)

Lee Bullet Sizing Kits are the fastest and easiest way to size cast bullets. Standard 7-8x14" threads fit any single stage reloading press. Bullets are pushed through the sizing die nose first, so no special nose punches are needed. Gas checks are automatically seated and crimped in place. Sized bullets are captured in the special container. Complete for one size. Press and bullet lubricant are sold separately. Special note: Intended for use on single stage presses only. The push through Punch is used in place of a Shell Holder in the Ram. Lee does not make top punches for molds. With the use of this kit, a top punch is not necessary. To crimp gas checks with the lube and size kit, first lubricate the bullets with liquid alox, push a gas check on the base of the bullet and set the bullet on the punch. When the bullet is pushed through the sizing die, the bullet will be sized, and the gas check will be crimped on. For cast bullets, you want to select a sizing kit to be .001" larger than groove diameter.

Attributes

- Name: [LEE PRECISION 0.278" DIAMETER BULLET SIZING KIT](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100032193
- Mfr. No.: 90261
- Diameter (in): 0.278
- Delivery weight: 0.295kg
- Shipping height: 89mm
- Shipping width: 76mm
- Shipping length: 121mm
- UPC: 734307902612

CLASSIC BULLET SIZING KIT LEE PRECISION

Safety Instruction Guide

Introduction

Thank you for choosing the CLASSIC BULLET SIZING KIT LEE PRECISION 0.278" DIAMETER BULLET SIZING KIT. This guide provides essential safety instructions and operational guidance to ensure the safe and effective use of this product. Please read this guide carefully before using the kit.

General Safety Guidelines

To promote safe use of the CLASSIC BULLET SIZING KIT, please adhere to the following guidelines:

- Ensure that the product is used only for its intended purpose.
- Keep the kit out of reach of children and vulnerable individuals.
- Regularly inspect the kit for any signs of damage or wear before use.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the kit.
- Follow all manufacturer instructions and guidelines for safe operation.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

When using the CLASSIC BULLET SIZING KIT, please follow these specific safety precautions:

- **Use on Single Stage Presses Only:** This kit is designed exclusively for use on single stage reloading presses. Do not use it with other types of presses.
- **Avoid Loose Clothing:** Ensure that you are not wearing loose clothing that could get caught in the machinery during operation.
- **Proper Lubrication:** Always lubricate bullets with liquid alox before sizing to ensure smooth operation and prevent damage to the kit.
- **Secure Gas Checks:** Make sure gas checks are properly seated on the bullets before pushing them through the sizing die to avoid mishaps.
- **Supervise Use:** If children or inexperienced users are present, ensure they are supervised at all times.
- **Do Not Force:** If the bullet does not pass through the sizing die easily, do not force it. Check for obstructions or misalignment.

Instructions for Installation and Usage

To ensure safe and effective use of the CLASSIC BULLET SIZING KIT, follow these instructions:

1. Setup:

- Securely mount the single stage reloading press on a stable surface.
- Ensure that the press is properly calibrated and functioning.

2. Lubricate Bullets:

- Apply a thin layer of liquid alox lubricant to the bullets to facilitate smooth sizing.

3. Prepare Gas Checks:

- Place a gas check on the base of the bullet before inserting it into the sizing die.

4. Insert Bullet:

- Position the bullet on the pushthrough punch, ensuring it is aligned correctly.

5. Size the Bullet:

- Gently push the bullet through the sizing die. The bullet will be sized, and the gas check will be crimped in place.

6. Capture Sized Bullets:

- Collect the sized bullets from the special container provided with the kit.

7. Clean Up:

- After use, clean the kit and workspace to remove any residual lubricant or debris.

Disposal Instructions

When it comes time to dispose of the CLASSIC BULLET SIZING KIT or any of its components, please follow these guidelines:

- Dispose of any damaged or unusable parts in accordance with local waste disposal regulations.
- If the kit or its components are no longer needed, consider recycling materials where possible.
- Do not dispose of any materials in a manner that could pose a risk to the environment or public safety.

Contact Information for Further Support

For further assistance, inquiries, or concerns regarding the CLASSIC BULLET SIZING KIT, please reach out to the manufacturer or consult the product documentation provided.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience with the CLASSIC BULLET SIZING KIT LEE PRECISION 0.278" DIAMETER BULLET SIZING KIT.
