

RIFLE FACTORY CRIMP DIES - LEE PRECISION 348 WINCHESTER FACTORY CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Lee Factory Crimp Die crimps the bullet in place more firmly than any other tool Tests demonstrate that even bullets which have no crimp groove will shoot more accurately A firm crimp improves accuracy because pressure must build to a higher level before the bullet begins to move. This higher start pressure insures a more uniform pressure curve and less velocity variation Features a collet that squeezes the case mouth into the crimping groove for a firm hold Shellholder not included Fits all 7/8"-14 reloading presses

Attributes

- Name: [LEE PRECISION 348 WINCHESTER FACTORY CRIMP DIE](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053147
- Mfr. No.: 90857
- Cartridge: 348 Winchester
- Die Style: Crimp Die
- Delivery weight: 0.159kg
- Shipping height: 36mm
- Shipping width: 84mm
- Shipping length: 116mm
- UPC: 734307908577

Safety Instruction Guide for Lee Precision 348 Winchester Factory Crimp Die

Introduction

Thank you for choosing the Lee Precision 348 Winchester Factory Crimp Die. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this document thoroughly before using the crimp die.

General Safety Guidelines

- Always handle the crimp die with care to prevent injury.
- Ensure that the crimp die is used only with compatible reloading presses (7/8"14).
- Keep the crimp die out of reach of children and vulnerable individuals.
- Regularly inspect the crimp die for any signs of wear or damage before use.
- Follow all local laws and regulations regarding the use and storage of reloading equipment.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper use may cause injury or damage to the firearm.
 - Crimping without a proper crimp groove can lead to inconsistent bullet seating.
- **Instructions for Avoiding Hazards:**
 - Always ensure that the bullet is seated correctly before crimping.
 - Do not exceed recommended crimp pressure to avoid damaging the bullet or casing.
 - Use eye protection when operating the reloading press and crimp die.
 - Avoid wearing loose clothing or jewelry that may become caught in machinery.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is securely mounted and stable.
- Carefully insert the crimp die into the reloading press and tighten according to the manufacturer's instructions.
- Verify that the die is properly aligned with the shell holder.

2. Usage:

- Prepare your cases and bullets as per standard reloading practices.
- Insert the case into the shell holder of the reloading press.
- Place the bullet into the case mouth, ensuring proper alignment.
- Slowly raise the ram of the press to bring the case into contact with the crimp die.
- Continue to raise the ram until the desired crimp is achieved, then lower the ram and remove the finished cartridge.
- Inspect the crimped cartridge for uniformity and ensure that the bullet is securely held in place.

Disposal Instructions

- Dispose of any damaged or worn components of the crimp die according to local waste disposal regulations.
- Do not throw away the crimp die in general waste; check for specialized recycling options for metal products.

Contact Information for Further Support

For any inquiries or concerns regarding the use of the Lee Precision 348 Winchester Factory Crimp Die, please refer to the contact information provided with the product packaging or visit the manufacturer's official website.

By adhering to these safety instructions, you can ensure a safer reloading experience with the Lee Precision 348 Winchester Factory Crimp Die. Always prioritize safety in all your reloading activities. Thank you for your attention to these important guidelines.
