

RIFLE FACTORY CRIMP DIES - LEE PRECISION 38-55 WCF FACTORY CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Lee Factory Crimp Die crimps the bullet in place more firmly than any other tool Tests demonstrate that even bullets which have no crimp groove will shoot more accurately A firm crimp improves accuracy because pressure must build to a higher level before the bullet begins to move. This higher start pressure insures a more uniform pressure curve and less velocity variation Features a collet that squeezes the case mouth into the crimping groove for a firm hold Shellholder not included Fits all 7/8"-14 reloading presses

Attributes

- Name: [LEE PRECISION 38-55 WCF FACTORY CRIMP DIE](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053148

Safety Instruction Guide for Lee Precision 3855 WCF Factory Crimp Die

Introduction

Thank you for choosing the Lee Precision 3855 WCF Factory Crimp Die. This product is designed to enhance the accuracy of your reloads by providing a firm crimp on the bullet. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always use the die in accordance with the manufacturer's instructions.
- Ensure that you are using the correct reloading press that fits the die specifications (7/8"14).
- Keep all reloading equipment out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses when reloading.
- Be aware of your surroundings and ensure you are in a safe environment when using this product.

Specific Safety Precautions for Use

- Avoid using the die with cases that are damaged or excessively worn.
- Do not force the die onto the case; ensure a proper fit to avoid accidents.
- Always ensure that the press is securely mounted and stable before operation.
- Do not attempt to modify the die or use it for purposes other than intended.
- Keep your hands clear of moving parts during operation to prevent injury.
- Store the die in a dry, cool place when not in use to prevent corrosion.

Instructions for Installation and Usage

1. Installation

- Ensure your reloading press is clean and properly set up.
- Securely attach the Lee Precision 3855 WCF Factory Crimp Die to the reloading press using the appropriate threads (7/8"14).
- Confirm that the die is tightened properly but avoid overtightening to prevent damage.

2. Usage

- Prepare your cases by cleaning and inspecting them for any defects.
- Insert the case into the shell holder of the reloading press.
- Raise the ram to position the case in the die.
- Adjust the die to achieve the desired level of crimp. A firm crimp is recommended for better accuracy.
- Lower the ram and remove the crimped case from the shell holder.
- Repeat the process for additional cases as needed.

Disposal Instructions

- Dispose of any damaged or wornout components in accordance with local regulations.
- Do not throw the die or any associated materials into regular waste. Check with local authorities for guidelines on proper disposal methods.
- Ensure that all packaging materials are recycled or disposed of properly.

Contact Information for Further Support

For any questions or concerns regarding the Lee Precision 3855 WCF Factory Crimp Die, please refer to the manufacturer's contact information provided with the product packaging. It is important to reach out for support to ensure safety and proper usage of the die.

Conclusion

Following these safety guidelines and instructions will help you use the Lee Precision 3855 WCF Factory Crimp Die effectively and safely. Always prioritize safety and ensure that you are informed about the proper handling and operation of this product. Thank you for your attention to these important safety measures.
