

# CLASSIC BULLET SIZING KIT - LEE PRECISION 0.410" DIAMETER BULLET SIZING KIT

[Reloading](#) > [Bullet Casting](#) > [Lube & Sizer Dies](#)

Lee Bullet Sizing Kits are the fastest and easiest way to size cast bullets. Standard 7-8x14" threads fit any single stage reloading press. Bullets are pushed through the sizing die nose first, so no special nose punches are needed. Gas checks are automatically seated and crimped in place. Sized bullets are captured in the special container. Complete for one size. Press and bullet lubricant are sold separately. Special note: Intended for use on single stage presses only. The push through Punch is used in place of a Shell Holder in the Ram. Lee does not make top punches for molds. With the use of this kit, a top punch is not necessary. To crimp gas checks with the lube and size kit, first lubricate the bullets with liquid alox, push a gas check on the base of the bullet and set the bullet on the punch. When the bullet is pushed through the sizing die, the bullet will be sized, and the gas check will be crimped on. For cast bullets, you want to select a sizing kit to be .001" larger than groove diameter.

## Attributes

- Name: [LEE PRECISION 0.410" DIAMETER BULLET SIZING KIT](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053250
- Mfr. No.: 90052
- Diameter (in): .410
- Delivery weight: 0.386kg
- Shipping height: 142mm
- Shipping width: 82mm
- Shipping length: 84mm
- UPC: 734307900526

## Safety Instructions

### Introduction

Thank you for choosing the CLASSIC BULLET SIZING KIT LEE PRECISION 0.410" DIAMETER BULLET SIZING KIT. This product is designed to provide you with a safe and efficient way to size cast bullets. Please read this safety instruction guide carefully to ensure proper use and to minimize any risks associated with the product.

### General Safety Guidelines

- Ensure that your work area is clean and free of any obstructions that may cause accidents.
- Always wear appropriate personal protective equipment, including safety glasses and gloves, while using the bullet sizing kit.
- Keep the bullet sizing kit out of reach of children and vulnerable individuals.
- Be aware of potential hazards associated with handling lead and other materials used in bullet casting and sizing.
- Regularly inspect the bullet sizing kit for any signs of wear or damage before use.
- Follow all local regulations regarding the handling and disposal of lead and other hazardous materials.

### Specific Safety Precautions for Use

- Do not use the bullet sizing kit if you are under the influence of drugs or alcohol.
- Ensure that the sizing die is securely attached to the reloading press before use.
- Never exceed the recommended sizing diameter for your bullets, as this may lead to malfunctions or damage.
- Always push bullets through the sizing die nose first to prevent accidents or injuries.
- Do not attempt to modify or alter the bullet sizing kit in any way.
- If you experience any difficulties or malfunctions while using the kit, stop immediately and consult the manufacturer for assistance.

### Instructions for Installation and Usage

#### 1. Preparation

- Gather all necessary materials, including the CLASSIC BULLET SIZING KIT, a single stage reloading press, and bullet lubricant.
- Ensure that your work area is welllit and organized.

#### 2. Installation

- Attach the sizing die to your single stage reloading press using standard 78x14" threads.
- Ensure that the sizing die is securely fastened and positioned correctly.

#### 3. Sizing Process

- Apply a thin layer of bullet lubricant (liquid alox) to the bullets you intend to size.
- Place a gas check on the base of each bullet.
- Set the bullet on the pushthrough punch.
- Operate the reloading press to push the bullet through the sizing die. The bullet will be sized, and the gas check will be crimped in place.
- Collect the sized bullets from the special container.

#### 4. PostUse Care

- Clean the sizing die and pushthrough punch after each use to prevent lead buildup and ensure longevity.
- Store the bullet sizing kit in a dry and secure location.

## Disposal Instructions

- Follow local regulations for the disposal of lead and other hazardous materials.
- Do not dispose of lead bullets or gas checks in regular trash.
- Contact your local waste management facility for guidance on proper disposal methods.

## Contact Information for Further Support

For any inquiries regarding the CLASSIC BULLET SIZING KIT or if you encounter any safety concerns, please reach out to your local distributor or consult the manufacturer's website for assistance.

By following these safety instructions, you can ensure a safe and effective experience while using the CLASSIC BULLET SIZING KIT LEE PRECISION. Thank you for your attention to these important safety guidelines.
