

2 CAVITY PISTOL BULLET MOLDS - LEE PRECISION 32 CALIBER (0.311") 100GR ROUND NOSE DOUBLE CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

All molds for pistol calibers are double cavity to speed casting. All Lee mould blocks are made from aluminum because of the exceptional moulding qualities. The mould cavities are CNC machined for unmatched roundness and size control. Most bullets from Lee moulds can be used as cast without sizing. Handles and sprue plate are included.

Attributes

- Name: [LEE PRECISION 32 CALIBER \(0.311"\) 100GR ROUND NOSE DOUBLE CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053302
- Mfr. No.: 90301
- Bullet Style: -
- Bullet Weight (Grains): 100
- Caliber: 32 Caliber, 8mm
- Cavities: -
- Diameter (in): 0.311
- Delivery weight: 0.386kg
- Shipping height: 52mm
- Shipping width: 66mm
- Shipping length: 274mm
- UPC: 734307903015

Safety Instruction Guide for 2 Cavity Pistol Bullet Molds

Introduction

Thank you for choosing the 2 Cavity Pistol Bullet Molds by Lee Precision. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this manual carefully before use.

General Safety Guidelines

- Ensure that the product is used only by individuals who are familiar with casting and handling bullet molds.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using the mold.
- Keep the work area clean, organized, and free from distractions to minimize the risk of accidents.
- Store the bullet molds in a dry, safe place out of reach of children and pets.
- Regularly inspect the molds for any signs of damage or wear before each use.
- Follow all local laws and regulations regarding the use of bullet molds and casting.

Specific Safety Precautions for Use

- **Heat Safety:** The molds will become extremely hot during use. Handle with care and use heatresistant gloves.
- **Lead Exposure:** Lead can be hazardous to your health. Ensure proper ventilation in your workspace and avoid inhaling fumes.
- **Sharp Edges:** The edges of the molds may be sharp. Exercise caution to prevent cuts or injuries while handling.
- **Injury Prevention:** Never leave the molds unattended while in use. Always supervise the casting process.
- **Chemical Safety:** If using any chemicals for mold release, ensure they are compatible with aluminum and follow the manufacturer's safety instructions.

Instructions for Installation and Usage

1. Preparation:

- Ensure the mold is clean and free from debris before use.
- Preheat the mold on a hot plate to improve bullet fillout.

2. Casting Process:

- Melt the lead using a suitable lead melting pot.
- Carefully pour the molten lead into the mold cavities, avoiding overfilling.
- Allow the lead to cool and solidify before removing the bullets from the mold.

3. PostCasting:

- Once cooled, gently open the mold to release the bullets.
- Inspect the bullets for any defects before use.
- Clean the mold after each use to maintain its condition and performance.

4. Storage:

- Store the molds in a cool, dry place.
- Avoid stacking heavy objects on top of the molds to prevent deformation.

Disposal Instructions

- Dispose of any lead scrap and waste according to local regulations.
- Do not dispose of lead in regular trash. Check with local authorities for proper disposal methods.
- Ensure that any used chemicals or mold release agents are disposed of in accordance with safety guidelines.

Contact Information for Further Support

For any safety inquiries or product support, please refer to the manufacturer's contact information provided with the product packaging.

By following these guidelines, you can ensure a safe and effective experience while using the 2 Cavity Pistol Bullet Molds. Always prioritize safety and adhere to local regulations regarding bullet casting. Thank you for your attention to these important safety instructions.
