

2 CAVITY RIFLE BULLET MOLDS - LEE PRECISION 8MM (0.324") 175GR ROUND NOSE DOUBLE CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Rifle Moulds](#)

All Lee mould blocks are made from aluminum because of its exceptional moulding qualities. All mould cavities are CNC machined for unmatched roundness and size control. All hollow base moulds are single cavity only as they have a self centering, automatic core pin for the fastest possible moulding. All moulds include handles and sprue plates.

Attributes

- Name: [LEE PRECISION 8MM \(0.324"\) 175GR ROUND NOSE DOUBLE CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053303
- Mfr. No.: 90274
- Bullet Weight (Grains): 175
- Caliber: 32 Caliber, 8mm
- Cavities: -
- Diameter (in): 0.324
- Delivery weight: 0.34kg
- Shipping height: 52mm
- Shipping width: 66mm
- Shipping length: 270mm
- UPC: 734307902742

Safety Instruction Guide for 2 CAVITY RIFLE BULLET MOLDS LEE PRECISION 8MM (0.324") 175GR ROUND NOSE DOUBLE CAVITY MOLD

Introduction

Thank you for choosing the 2 CAVITY RIFLE BULLET MOLDS LEE PRECISION 8MM (0.324") 175GR ROUND NOSE DOUBLE CAVITY MOLD. This guide provides essential safety instructions and information to ensure the safe use of this product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep out of reach of children and vulnerable individuals. This product is not intended for use by minors.
- Always wear appropriate safety gear, including eye protection and gloves, when using this product.
- Be aware of your surroundings and ensure that no unauthorized persons are nearby while using this product.
- Regularly inspect the mold for any signs of wear or damage before each use.

Specific Safety Precautions for Use

- Use the mold in a wellventilated area to avoid inhalation of fumes during the casting process.
- Ensure that the heat source used for melting lead is stable and adequately maintained.
- Avoid touching hot surfaces of the mold to prevent burns. Use handles provided.
- Do not exceed the recommended temperature for melting lead to prevent damage to the mold.
- Store the mold in a dry, cool place when not in use to prevent corrosion and maintain performance.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials and tools before starting.
- Ensure that you have a suitable heat source for melting lead.

2. Setting Up the Mold:

- Place the mold on a stable, heatresistant surface.
- Ensure that the sprue plate is securely attached to the mold.

3. Melting Lead:

- Heat the lead to the recommended temperature (approximately 660°F or 350°C).
- Use a thermometer to monitor the temperature accurately.

4. Casting Bullets:

- Carefully pour the melted lead into the mold cavities.
- Allow the lead to cool and solidify for the recommended time.

5. Removing Bullets:

- Once cooled, carefully remove the bullets from the mold using the handles.
- Inspect each bullet for quality and consistency.

6. Cleaning the Mold:

- After use, clean the mold with a soft cloth to remove any lead residue.
- Do not use abrasive materials that may scratch the mold surface.

Disposal Instructions

- Dispose of any lead waste in accordance with local regulations regarding hazardous materials.
- Do not dispose of lead in regular household waste. Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding the use of this product, please refer to the manufacturer's contact information provided with the product packaging.

Conclusion

Following these safety guidelines and instructions will help ensure a safe and effective experience when using the 2 CAVITY RIFLE BULLET MOLDS LEE PRECISION 8MM (0.324") 175GR ROUND NOSE DOUBLE CAVITY MOLD. Always prioritize safety and adhere to proper procedures for the best results. Thank you for your attention to these important safety measures.
