

# 2 CAVITY PISTOL BULLET MOLDS - LEE PRECISION 50 CALIBER (0.501") 440GR ROUND FLAT NOSE DOUBLE CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

All molds for pistol calibers are double cavity to speed casting. All Lee mould blocks are made from aluminum because of the exceptional moulding qualities. The mould cavities are CNC machined for unmatched roundness and size control. Most bullets from Lee moulds can be used as cast without sizing. Handles and sprue plate are included.

## Attributes

- Name: [LEE PRECISION 50 CALIBER \(0.501"\) 440GR ROUND FLAT NOSE DOUBLE CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053305
- Mfr. No.: 90991
- Bullet Weight (Grains): 440
- Caliber: 50 Caliber
- Cavities: 2
- Diameter (in): 0.501
- Delivery weight: 0.34kg
- Shipping height: 52mm
- Shipping width: 66mm
- Shipping length: 272mm
- UPC: 734307909918

# Safety Instruction Guide for 2 Cavity Pistol Bullet Molds

## Introduction

Thank you for choosing the 2 Cavity Pistol Bullet Molds by Lee Precision. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read this guide carefully before use.

## General Safety Guidelines

- Ensure that the product is used in compliance with all local laws and regulations regarding firearms and ammunition.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, while using the molds.
- Keep the molds out of reach of children and unauthorized users.
- Inspect the molds for damage before each use. Do not use if damaged.
- Follow all local regulations regarding the disposal of lead and other materials used in casting bullets.

## Specific Safety Precautions for Use

- Only use the molds with compatible casting materials. Ensure that you are using lead or suitable alloys as specified by the manufacturer.
- Avoid inhaling fumes generated during the melting and casting process. Use in a wellventilated area or use appropriate ventilation equipment.
- Do not exceed the recommended temperature for the casting material to prevent burns or other injuries.
- Use caution when handling molten lead. It can cause severe burns if it comes into contact with skin.
- Keep flammable materials away from the casting area to prevent fire hazards.
- Ensure that all equipment used in conjunction with the molds is in good working order and properly maintained.

## Instructions for Installation and Usage

### 1. Setup:

- Place the mold on a stable, heatresistant surface.
- Ensure that the mold is clean and free from debris before use.

### 2. Heating:

- Preheat the mold according to the manufacturer's recommendations to ensure optimal casting results.
- Monitor the temperature of the mold to avoid overheating.

### 3. Casting:

- Melt the casting material (lead or alloy) in a suitable melting pot.
- Carefully pour the molten material into the mold cavities, avoiding overfilling.
- Allow the bullets to cool and solidify before removing them from the mold.

### 4. Cleaning:

- After use, clean the mold thoroughly to remove any residual material.
- Store the mold in a dry place to prevent corrosion.

## Disposal Instructions

- Dispose of any lead or casting material waste in accordance with local regulations. Do not dispose of lead in regular trash.
- Use designated facilities for hazardous waste disposal to ensure environmental safety.

## Contact Information for Further Support

For additional support or inquiries regarding safety, please refer to the manufacturer's website or customer service. Ensure that you have the product details ready when seeking assistance.

## Conclusion

By following these safety instructions, you can ensure a safe and effective experience while using the 2 Cavity Pistol Bullet Molds. Always prioritize safety and compliance with local regulations. Thank you for your attention to these important guidelines.
