

# 2 CAVITY PISTOL BULLET MOLDS - LEE PRECISION 38 CALIBER (0.358") 158GR SEMI-WADCUTTER DOUBLE CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

All molds for pistol calibers are double cavity to speed casting. All Lee mould blocks are made from aluminum because of the exceptional moulding qualities. The mould cavities are CNC machined for unmatched roundness and size control. Most bullets from Lee moulds can be used as cast without sizing. Handles and sprue plate are included.

# Safety Instruction Guide for 2 Cavity Pistol Bullet Molds

## Introduction

Thank you for choosing the 2 Cavity Pistol Bullet Molds from Lee Precision. This guide provides important safety instructions to ensure your safe and effective use of this product. Please read this document carefully before using the molds.

## General Safety Guidelines

- Ensure that you are familiar with the safe handling and use of casting equipment.
- Always wear appropriate personal protective equipment (PPE), such as gloves and safety glasses, when using the molds.
- Keep the work area clean and free from hazards to prevent accidents.
- Store the molds in a safe place, away from children and pets.
- Follow all local laws and regulations regarding ammunition reloading and casting.

## Specific Safety Precautions for Use

- **Hazard Awareness:** The molds are designed for casting bullets and can reach high temperatures. Handle with care to avoid burns.
- **Ventilation:** Ensure that your work area is wellventilated to avoid inhalation of any fumes or gases produced during the casting process.
- **Material Safety:** Use only lead or lead alloys compatible with the molds. Do not use other materials that may pose safety risks.
- **Child Safety:** Keep the molds out of reach of children. This product is not intended for use by individuals under the age of 18.
- **Emergency Procedures:** In case of an accident, such as burns or exposure to hazardous materials, seek medical attention immediately.

## Instructions for Installation and Usage

- **Setup:**
  - Ensure that your casting equipment is clean and in good working order before use.
  - Secure the molds in your casting setup according to the manufacturer's instructions.
- **Casting Process:**
  - Preheat the molds to the recommended temperature before pouring the lead.
  - Pour the molten lead into the cavities slowly to avoid splashing.
  - Allow the bullets to cool completely before removing them from the molds.
  - Inspect the bullets for any defects before use.
- **PostUse Care:**
  - Clean the molds with a soft brush to remove any lead residue after each use.
  - Store the molds in a dry place to prevent corrosion or damage.

## **Disposal Instructions**

- Dispose of any lead waste or defective bullets in accordance with local environmental regulations.
- Do not dispose of lead in regular trash. Check for local recycling programs that accept lead materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of your 2 Cavity Pistol Bullet Molds, please refer to the manufacturer's contact details included in the product packaging.

## **Conclusion**

By following these safety instructions, you can ensure a safe and enjoyable experience with your 2 Cavity Pistol Bullet Molds. Always prioritize safety and adhere to regulations to protect yourself and others during the casting process. Thank you for choosing Lee Precision, and happy casting!
