Safety Instruction Guide for AR15 Gas Tubes

Introduction

Thank you for choosing the AERO Precision Gas Tube for your AR15. This guide provides important safety instructions and information to ensure the safe use of your gas tube. Please read this document carefully before installation and use.

General Safety Guidelines

- Always ensure that the firearm is unloaded before performing any maintenance or installation.
- Use only compatible parts with your AR15 to avoid malfunctions or safety hazards.
- Inspect the gas tube for any visible damage before installation. Do not use a damaged gas tube.
- Follow all local laws and regulations regarding firearms and accessories.
- Keep the gas tube and all firearm components out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the gas system length is appropriate for your firearm configuration (Pistol Length).
- Do not modify the gas tube or any associated components, as this can lead to unsafe operation.
- Always wear appropriate safety gear, such as eye protection, when handling firearms.
- Be aware of the potential for hot gases and debris during operation; ensure your face and body are positioned safely.
- If you experience any malfunctions, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Gather necessary tools: a roll pin punch, hammer, and any other tools required for your specific firearm.
- Ensure your workspace is clean and free of distractions.

2. Installation:

- Confirm that the firearm is unloaded and pointed in a safe direction.
- Remove the existing gas tube if applicable, following the manufacturer's instructions.
- Align the new AERO Precision Gas Tube with the gas block.
- Insert the roll pin included with the gas tube into the designated hole. Use a roll pin punch and hammer to secure it in place.
- Doublecheck the alignment and ensure the gas tube is seated properly.

3. Usage:

- After installation, perform a function check to ensure the gas system operates correctly.
- Test fire the firearm in a safe environment to confirm proper operation of the gas tube and gas system.
- Monitor the gas tube for any signs of wear or damage during regular maintenance checks.

Disposal Instructions

- Dispose of the gas tube in accordance with local regulations.
- Do not dispose of the gas tube in regular household waste.

- Contact your local waste management facility for guidance on proper disposal methods for metal components.

Contact Information for Further Support

For any safety inquiries or further assistance, please reach out to the designated EU contact point for product safety.

Thank you for prioritizing safety while using the AERO Precision Gas Tube. Enjoy your shooting experience responsibly!
