

STEEL NECK SIZING BUSHINGS - RCBS STEEL NECK BUSHING .257

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS STEEL NECK BUSHING .257](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060276
- Mfr. No.: 81572
- Diameter (Breech): 0.257
- Diameter (in): .257
- Delivery weight: 0.007kg
- Shipping height: 25mm
- Shipping width: 25mm
- Shipping length: 25mm
- UPC: 076683815729

Safety Instruction Guide for RCBS Steel Neck Sizing Bushings .257

Introduction

Thank you for choosing the RCBS Steel Neck Sizing Bushings .257. This guide provides important safety information, usage instructions, and disposal guidelines to ensure safe and effective use of this product. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure safe use of the product by following all instructions provided in this guide.
- Be aware of potential hazards associated with the use of steel neck bushings, including sharp edges and the risk of injury during handling.
- Always store the product in a safe place, out of reach of children and vulnerable individuals.
- If you have any concerns about the safety of this product, please report them to the relevant authorities.

Specific Safety Precautions for Use

- Always wear protective eyewear when using the steel neck bushings to prevent eye injuries from flying debris.
- Handle the bushings with care to avoid cuts or abrasions from sharp edges.
- Ensure that the sizing dies are properly installed and secured before use to prevent accidents.
- Use the steel neck bushings only with RCBS Gold Medal Match sizing dies to ensure compatibility and safety.
- Do not exceed the recommended tension settings when resizing cases, as this may lead to damage or injury.
- If you experience any difficulty when using the product, cease use immediately and consult a qualified professional.

Instructions for Installation and Usage

• Selecting the Right Bushing:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" for proper neck tension.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

• Installation:

- Ensure that the sizing die is clean and free from debris.
- Insert the steel neck bushing into the sizing die until it is fully seated.
- Tighten the bushing securely, ensuring it is aligned correctly with the die.

• Usage:

- Place the case into the sizing die and apply steady pressure on the handle to resize the case.
- Monitor the tension applied to the bullet to ensure it is within the recommended range.
- After resizing, remove the case from the die and inspect it for any signs of damage or improper sizing.

Disposal Instructions

- Dispose of any damaged or unusable steel neck bushings in accordance with local regulations for metal waste.
- Do not dispose of the product in regular household waste. Check with your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the RCBS Steel Neck Sizing Bushings .257, please consult the manufacturer's website or customer support resources. Ensure you have your product details ready for reference.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with the RCBS Steel Neck Sizing Bushings .257. Thank you for your attention to safety and proper use.
