

308 WINCHESTER NECK DIE SET - RCBS 308 WINCHESTER NECK DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

This 308 Winchester Two-Die Neck Die Set is for bottleneck cases to be fired in bolt-action rifles only—specifically, cases fired out of a specific rifle and neck-sized to go back into the same rifle. The set consists of a Neck Sizer Die with an Expander-Decapping Unit, and a Seater Die with Bullet Seater Plug. The Neck Sizer Die resizes the neck only (it doesn't touch the shoulder or body) and de-primes. The included Seater Die has a built-in roll crimper to secure the bullet at the same time it's seated.
