

REPLACEMENT LIGHT BODIES - MODLITE SYSTEMS 18650 BODY FDE -SCOUT WML

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Weapon Lights](#)

Lightweight Weapon Light Replacement Body

The Modlite light 18350 Body is designed as a direct replacement body for Surefire® Scout Light M600DF weapon lights and the KE2-DF head. This is the only Surefire light head that it is compatible with. It is approximately 1.25 inches shorter and about 1.5 oz. lighter than a M600DF body with battery. This allows for additional rail space especially on SBR and pistol builds. The Modlite 18350 Light Body is compatible with Surefire® z68, Modlite TCC tailcaps along with Surefire UE and DS00 tail caps. It will also fit in any aftermarket Scout mount, as it retains the mounting holes and square lug interface on the underside of the light body. This light body accepts 18350 cells only. Lithium CR123 cells are not supported and if used will cause the cells to heat up and possibly explode or catch fire. Modlite recommends the KeepPower high drain 18350 1200mAh cells. Runtime is about 35-40 minutes with these cells. The Modlite light 18650 Body is designed as a direct replacement body for Surefire® Scout Light M600DF weapon lights and KE2-DF heads. It will also fit all Modlite light heads. The Modlite 18650 Light Body is compatible with Surefire® z68, Modlite TCC tailcaps along with Surefire UE and DS00 tail caps. It will also fit in any aftermarket Scout mount, as it retains the mounting holes and square lug interface on the underside of the light body. Modlite recommends and sells the Arisaka Defense mounts. This light body accepts 18650 cells only. Lithium CR123 cells are not supported and if used will cause the cells to heat up and possibly explode or catch fire. Modlite recommends the KeepPower high drain 3500mAh cells. Runtime is about 75-80 minutes with these cells. The Modlite 18650 light body is NOT compatible with the Surefire older Scout light heads.

Safety Instruction Guide for Modlite Replacement Light Bodies

Introduction

Thank you for choosing the Modlite Replacement Light Bodies. This guide provides essential safety instructions and usage guidelines to ensure your product is used safely and effectively. Please read this manual carefully before using the product.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as a light body for Surefire® Scout Light M600DF weapon lights and compatible Modlite light heads.
- Always check the compatibility of your light body with the specific light head before installation.
- Keep the product out of reach of children and vulnerable individuals to prevent accidental misuse.
- Regularly inspect the light body for any signs of damage or wear. Do not use if damaged.
- Follow all local laws and regulations regarding the use of weapon lights.

Specific Safety Precautions for Use

- **Battery Compatibility:**
 - This light body accepts only 18350 or 18650 cells, depending on the model.
 - Do not use Lithium CR123 cells as they may cause overheating, explosion, or fire.
 - Recommended batteries include:
 - For the 18350 Light Body: KeepPower high drain 18350 1200mAh cells.
 - For the 18650 Light Body: KeepPower high drain 3500mAh cells.
- **Heat Management:**
 - Monitor the light during use. If it becomes excessively hot, turn it off immediately and allow it to cool.
- **Mounting:**
 - Ensure the light body is securely mounted to prevent it from detaching during use.
 - Use only compatible aftermarket Scout mounts to maintain safety and performance.
- **Environmental Considerations:**
 - Do not expose the light body to extreme temperatures, moisture, or corrosive environments.
- **Emergency Procedures:**
 - In the event of a battery leak, explosion, or fire, follow local emergency protocols and seek assistance.

Instructions for Installation and Usage

Installation

1. **Prepare the Light Body:** Ensure you have the correct Modlite light body for your Surefire® Scout Light M600DF or compatible light head.
2. **Insert the Battery:**
 - For the 18350 Light Body, insert the recommended 18350 cell.
 - For the 18650 Light Body, insert the recommended 18650 cell.
3. **Secure the Light Head:** Attach the Surefire® light head or Modlite light head to the light body. Ensure it is tightly secured.
4. **Mount the Light:**
 - Attach the light body to your weapon system using a compatible mount.
 - Ensure all mounting holes and interfaces are aligned and securely fastened.

Usage

1. **Turning On/Off:** Use the appropriate tailcap switch to turn the light on and off.
2. **Adjusting Brightness:** If applicable, use the tailcap features to adjust brightness levels as needed.
3. **Monitoring Runtime:** Be aware of the expected runtime (approximately 3540 minutes for 18350 and 7580 minutes for 18650 cells). Plan your usage accordingly.
4. **PostUse Care:** After use, turn off the light and allow it to cool before handling.

Disposal Instructions

- Dispose of the light body and batteries according to local regulations and guidelines for electronic waste.
- Do not dispose of batteries in household waste. Follow proper recycling protocols for batteries.

Contact Information for Further Support

For any questions or concerns regarding the Modlite Replacement Light Bodies, please refer to the manufacturer's website or customer support resources.

Please remember to report any unsafe products or incidents to the relevant authorities and check for recall updates on the EU's Safety Gate platform. Your safety is our priority. Thank you for choosing Modlite.
