

ANGLED CLEANING BRUSHES - BIRCHWOOD CASEY ANGLED BRUSH PAK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Gun Cleaning Brushes](#)

Gets Into The Tight Spots Where Fouling Builds Up

Angled shanks make these little brushes shaped like precision dental instruments to get into those hard-to-reach nooks and crannies on all kinds of firearms. 3-pak includes two brushes with stainless steel wire bristles and one with less aggressive nylon strands. Long wooden handles with steel tube shanks provide comfort and plenty of backbone to handle tough scrubbing jobs. Stiff, stainless steel bristles work best for removal of fouling that other brushes won't tackle, such as stubborn carbon and burnt-in powder deposits, even welding scale. Use only on interior surfaces or prior to polishing and refinishing as these bristles will scratch most gun steels and surface finishes. Nylon bristles work well for most general cleaning applications and with today's new generation bore cleaners that can chemically attack brass and bronze bristles.

Attributes

- Name: [BIRCHWOOD CASEY ANGLED BRUSH PAK](#)
- Manufacturer: [BIRCHWOOD CASEY](#)
- Product no.: 167411080
- Mfr. No.: BC-41108

ANGLED CLEANING BRUSHES BIRCHWOOD CASEY ANGLED BRUSH PAK Safety Instructions

Introduction

Thank you for choosing the Angled Cleaning Brushes Birchwood Casey Angled Brush Pak. These brushes are designed to assist in the cleaning of firearms with precision and ease. This guide provides essential safety instructions to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that all cleaning is performed in a wellventilated area.
- Keep brushes out of reach of children and vulnerable individuals.
- Always inspect brushes for damage before use. Do not use if bristles are frayed or broken.
- Use brushes only for their intended purpose to avoid injury or damage to firearms.
- Follow all manufacturer instructions when using cleaning agents in conjunction with these brushes.

Specific Safety Precautions for Use

• Hazard Identification:

- The stainless steel bristles can scratch surfaces and cause injury if used improperly.
- The brushes may cause debris to become airborne, which can be harmful if inhaled.

• Avoiding Hazards:

- Use the brushes only on interior surfaces of firearms or prior to polishing. Avoid using on exterior surfaces to prevent scratching.
- Wear safety goggles to protect your eyes from flying debris during cleaning.
- Use gloves to protect your hands from cleaning chemicals and sharp edges of the brushes.
- Do not apply excessive force when using the brushes to prevent slipping and potential injury.

Instructions for Installation and Usage

• Installation:

- No installation is required. The brushes are ready for use upon removal from the packaging.

• Usage Instructions:

- Select the appropriate brush based on the cleaning task:
- Use stainless steel bristles for tough fouling such as carbon and burnt powder deposits.
- Use nylon bristles for general cleaning applications.
- Hold the brush by the wooden handle with a firm grip.
- Insert the brush into the area to be cleaned, applying gentle pressure.
- Move the brush in a backandforth motion to dislodge fouling.
- After use, clean the brushes with a suitable solvent and allow them to dry completely before storage.

Disposal Instructions

- Dispose of the brushes responsibly. If damaged or worn, do not throw them in regular waste.

- Check local regulations for specific disposal instructions for cleaning tools and materials.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any inquiries regarding the safety and usage of the Angled Cleaning Brushes, please refer to the product packaging for contact details or consult the manufacturer's website for further assistance.

By following these safety instructions, you can ensure a safe and effective cleaning experience with your Angled Cleaning Brushes. Thank you for prioritizing safety and compliance!
