

FULL LENGTH SIZING AND BENCH REST SEATER DIE SETS - FORSTER PRODUCTS, INC. 6.5-284 WINCHESTER FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Bench Rest Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. A full length two die set is the die set beginning reloaders should start with, and the die set most hunters and many target shooters use every time they reload their cases. These Forster full length die sets include a full length sizing die and the Forster Bench Rest seater die. Forster full length sizers feature hand polishing and the E-Z case neck expander system - a Forster exclusive. NATIONAL MATCH DIES reduce headspace by .003" and are intended for bolt action target rifles only.

Attributes

- Name: [FORSTER PRODUCTS, INC. 6.5-284 WINCHESTER FULL LENGTH DIE SET](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 250000659

Safety Instruction Guide for Forster Full Length Sizing and Bench Rest Seater Die Sets

Introduction

Thank you for choosing the Forster Full Length Sizing and Bench Rest Seater Die Sets. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this guide thoroughly before using the dies.

General Safety Guidelines

- Always handle reloading equipment with care to prevent accidents.
- Ensure that your workspace is clean, organized, and free from distractions.
- Use personal protective equipment (PPE) such as safety glasses and gloves during reloading.
- Store dies and reloading components in a secure place, out of reach of children and pets.
- Be aware of the specific hazards associated with reloading ammunition, including the use of gunpowder and primers.
- Follow all local laws and regulations regarding reloading and ammunition storage.

Specific Safety Precautions for Use

- Inspect the dies for any signs of damage or wear before use.
- Ensure that the dies are compatible with the cartridge you are reloading (e.g., 6.5 x 284 mm Winchester).
- Use the dies only for their intended purpose; do not modify or alter the dies.
- Keep the work area wellventilated to avoid inhalation of dust or fumes.
- Avoid wearing loose clothing or jewelry that could become entangled in equipment.
- Never leave reloading equipment unattended while in use.
- If an accident occurs, seek medical attention immediately and report the incident as necessary.

Instructions for Installation and Usage

1. Setting Up the Dies:

- Carefully remove the dies from their packaging.
- Inspect each die for any defects or damage.
- Follow the manufacturer's instructions for installation into your reloading press.

2. Using the Full Length Sizing Die:

- Adjust the die to the proper height according to your reloading press specifications.
- Insert the cartridge case into the die and apply even pressure to resize the case.
- Check the resized case for proper dimensions using calipers.

3. Using the Bench Rest Seater Die:

- Adjust the seater die to achieve the desired bullet seating depth.
- Place the bullet on top of the cartridge case and insert it into the seater die.
- Apply consistent pressure to seat the bullet to the correct depth.

4. Final Inspection:

- After reloading, visually inspect each round for proper assembly and dimensions.
- Store completed ammunition in a safe and secure location.

Disposal Instructions

- Dispose of any damaged or unusable dies according to local regulations.
- Do not throw away ammunition components in regular household waste.
- Contact local authorities or hazardous waste disposal facilities for guidance on proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Forster Full Length Sizing and Bench Rest Seater Die Sets, please refer to the manufacturer's contact details provided with the product packaging.

Note: This guide is intended to promote safe practices and compliance with the EU General Product Safety Regulation (GPSR). Always stay informed about the latest safety updates and product recalls through the EU's Safety Gate platform.
