

# AR-15 CARBINE BUFFER SPRING - D.S. ARMS AR-15/M16 CARBINE RECOIL SPRING

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

## Standard Spec Replacement Spring Helps Keep Your Carbine Cycling Smoothly

Replacement buffer spring is the medicine to cure cycling problems caused by spring fatigue. Made of high-grade coil spring steel that retains its full elasticity over thousands of compression cycles, to help ensure your rifle keeps running smoothly. Properly finished ends won't damage the inside of the buffer tube or the face of the buffer. If your formerly reliable rifle starts having cycling problems with the loads it used to like, even after a thorough cleaning, replacing the inexpensive recoil spring may be the only fix required to get it back "up to snuff". For use only in M4-type receiver extensions with a carbine-weight recoil buffer.

## Attributes

- Name: [D.S. ARMS AR-15/M16 CARBINE RECOIL SPRING](#)
- Manufacturer: [D.S. ARMS](#)
- Product no.: 274000024
- Mfr. No.: ZM44564
- Weapon type: AR-15
- Delivery weight: 0.068kg
- Shipping height: 22mm
- Shipping width: 152mm
- Shipping length: 302mm

# AR15 Carbine Buffer Spring Safety Instruction Guide

## Introduction

Thank you for choosing the AR15 Carbine Buffer Spring by D.S. Arms. This guide provides essential safety information and instructions to ensure the safe and effective use of your recoil spring. Please read this guide carefully before installation and usage.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's specifications.
- Always handle firearms and their components safely and responsibly.
- Keep the recoil spring and all firearm components out of reach of children and unauthorized users.
- Regularly inspect the recoil spring for wear and damage. Replace it if any issues are detected.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use this buffer spring only in M4type receiver extensions with a carbineweight recoil buffer.
- Do not use this product if it appears damaged or does not function as intended.
- Avoid using ammunition that exceeds the specifications for your firearm.
- Ensure that your firearm is unloaded before performing any maintenance or installation of the recoil spring.
- Always wear appropriate safety gear, including eye protection, when handling firearms.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure that your firearm is completely unloaded.
- Gather the necessary tools for installation, including a wrench and any other required tools as specified in your firearm's manual.

### 2. Installation Steps

- Remove the buffer tube from the receiver by unscrewing it.
- Take out the old buffer spring and inspect the buffer tube for any debris or damage.
- Insert the new AR15 Carbine Buffer Spring into the buffer tube, ensuring it is seated correctly.
- Reattach the buffer tube to the receiver, ensuring it is securely fastened.

### 3. Usage

- After installation, test the firearm in a safe environment to ensure proper cycling.
- Monitor the performance of the firearm regularly to detect any cycling issues that may arise.

## Disposal Instructions

- Dispose of the old buffer spring and any packaging materials in accordance with local regulations.
- Do not dispose of the buffer spring in regular household waste. Check for local recycling programs for metal components.

## **Contact Information for Further Support**

For any inquiries regarding safety or product performance, please contact the manufacturer or your local dealer. It is important to have a point of contact for safety questions and support.

By following these guidelines and instructions, you can ensure the safe and effective use of your AR15 Carbine Buffer Spring. Thank you for prioritizing safety and responsibility in your firearm practices.
