

SIG SHR 970 SCOPE BASES - EGW SIG SHR 970 0 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW SIG SHR 970 Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your rifle with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Lightweight Tactical mounts have a milled center channel for weight reduction. Full-width cross-slots are gauged to MIL-STD 1913 specs to $\pm .002$ ". Machined from ultra-rigid, extruded 6061 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite for mounting.

Attributes

- Name: [EGW SIG SHR 970 0 MOA](#)
- Manufacturer: [EGW](#)
- Product no.: 296000454
- Mfr. No.: 44200

Safety Instruction Guide for SIG SHR 970 Scope Bases

Introduction

Thank you for choosing the EGW SIG SHR 970 Scope Bases. This guide provides essential safety information and instructions to ensure the safe and effective use of your product. Please read this document carefully before installation and usage.

General Safety Guidelines

- Ensure that the scope bases are compatible with your specific rifle model (Sig Sauer SHR 970).
- Always use the product in accordance with the manufacturer's instructions to avoid potential hazards.
- Store the scope bases in a cool, dry place away from direct sunlight to prevent material degradation.
- Inspect the product regularly for signs of wear or damage. Do not use if damaged.
- Keep the product out of reach of children and unauthorized users.
- Report any accidents or unsafe product experiences to the relevant authorities.

Specific Safety Precautions for Use

- Always ensure the rifle is unloaded before installing or adjusting the scope bases.
- Use appropriate tools, such as a Torx® wrench, to avoid damaging the screws or bases during installation.
- When tightening screws, adhere to the recommended torque of 20 inch lbs and use a drip of blue Loctite to secure the screws.
- Do not exceed the specified torque to avoid stripping screws or damaging the scope bases.
- Ensure that the scope is properly mounted and securely fastened before use.
- Be aware of the weight distribution and balance of the rifle after installation to maintain safe handling.

Instructions for Installation and Usage

1. Preparation:

- Gather the necessary tools: a Torx® wrench and blue Loctite.
- Ensure the rifle is unloaded and in a safe working environment.

2. Installation:

- Align the EGW SIG SHR 970 Scope Bases with the factory scope mount holes on the rifle's receiver.
- Insert the socket head Torx® screws into the predrilled holes of the scope bases.
- Use the Torx® wrench to tighten the screws gradually, ensuring even pressure across all screws.
- Apply a drip of blue Loctite to each screw before final tightening to secure the bases.
- Tighten each screw to the recommended torque of 20 inch lbs, avoiding overtightening.

3. Usage:

- After installation, mount your scope onto the Picatinny rail of the bases.
- Adjust the eye relief as necessary for comfort and optimal sighting.
- Regularly check the mounting screws for tightness, especially after heavy use or transportation.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the scope bases are damaged beyond use, dispose of them responsibly. Check local electronic waste guidelines for proper disposal methods.

Contact Information for Further Support

For any further inquiries regarding safety or product usage, please refer to the manufacturer's contact details provided with your product. Ensure to keep this manual for future reference.

Thank you for prioritizing safety while using your EGW SIG SHR 970 Scope Bases. Enjoy your shooting experience responsibly!
