

# OTB OVERT FRONT PLATE BAG - OTB LV-119 FRONT OVERT PLATE BAG (MEDIUM) - MULTICAM

[Home](#)

OTB OVERT Front Plate Bag The LV/119 System The LV/119 SYSTEM is a family of products that work together to give end-users the ability to scale their equipment to their current needs. The fact that this is a cohesive system means that end-users are able to mix and match accessories in most cases. For example: One could take a C O V E R T Front or Rear Plate bag and use it with an O V E R T Front and Rear Plate Bag. Users may cross pollinate cummerbunds, shoulder covers, and other pieces of the system. The SYSTEM encompasses many parts, some of which are currently available and some that are in development. These include Back Panels of various types, MOLLE cummerbunds, First Spear TUBES™ integrations, and different placards. Over The Beach Operations Over The Beach Operations are some of the most challenging and miserable operations that service members must endure. We are proud to bring a suite of products that directly results in improved load carriage and soldier survival during sea borne operations. The OTB product line is built with a mesh material, which allows for quick drainage of water and sea borne debris such a sand. OTB products will dry faster after exiting the water and will drain water faster and more efficiently as well. The mesh also makes the products simple to clean using fresh water after conducting operations in salt environments. The Over The Beach (OTB) O V E R T shares the same profile as the C O V E R T and O V E R T plate bags but with modifications that make it more suitable for seaborne operations. Most noticeable the bags are made primarily of a hydrophobic mesh material. The front bag features a 3 Row / 4 Column MOLLE field that doubles as a 6" x 3" Velcro Field. This may be used to attach End User Devices (EUDs), such as those made by KAGWERKS or Juggernaut Defense. The Velcro may be used to mount placards, patches, and IR identifiers. The MOLLE can also be used to mount administrative pouches, frag grenade pouches, or Personal Floatation Devices. Every front plate bag comes standard with sewn loops on the sides for attaching First Spear TUBES™ for use with our MOLLE TUBES™ Cummerbund. Placard and Chest Rig Integration. All LV/119 Plate Bags offer placard and chest rig integration via removable 1-Inch ITW NEXUS Buckles. These clips are removable, allowing users to reduce the signature of the plate bag if it is being worn under a cover shirt or being utilized in a low-profile role. The OTB series of products offers a specific OTB Placard that can button into the front bag for added security when jumping into the water. The OTB plate bag is still compatible with our normal placard offerings as well as the Micro Fight Chest Rig Chassis. Push To Talk Support. Each O V E R T front plate bag comes standard with a PTT/Porkchop Loop on either side. Communication Cable Routing. The Modern Warfighter and Law Enforcement Officer has a radio. To date, the majority of manufacturers have not taken end-user communications needs into their design considerations - we endeavor to break that paradigm. The O V E R T front bag offers open shoulders to facilitate commo cable routing inside the plate bags and over the shoulders. It also offers small routing points by the 1-Inch ITW NEXUS buckles on the chest - easily accommodating PTT cable routing. Plate Fitment. The carrier was designed to fit United States Standard Issue SAPI cut plates, but it will fit other cuts as well as long as they fit within the specifications listed below. The bags were built to accommodate "thicker" plates, but they will not fit plates do not fall within the measurements listed. Medium -10" x 12.5" Large - 10.25" x

13.25" Extra Large- 11" x 14.00" Thickness - MAXIMUM of 1.20" NOTE: This is a component of a Spiritus Systems LV/119 Plate Carrier build. To build a COMPLETE plate carrier you will need to select AT LEAST ONE of each of these items: Spiritus Systems Front Plate Bag Spiritus Systems Rear Plate Bag Spiritus Systems Shoulder Covers Spiritus Systems Cummerbund Set

## Attributes

- Name: [OTB LV-119 FRONT OVERT PLATE BAG \(MEDIUM\) - MULTICAM](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430101906
- Mfr. No.: PC-FB-MC-MD
- Color: Multi-Cam
- Delivery weight: 0.21kg
- Shipping height: 38mm
- Shipping width: 178mm
- Shipping length: 254mm

# OTB OVERT FRONT PLATE BAG Safety Instruction Guide

## Introduction

Thank you for choosing the OTB OVERT Front Plate Bag. This product is designed to enhance your operational capabilities while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

## General Safety Guidelines

- Ensure that you are familiar with the product's features and specifications before use.
- Always inspect the plate bag for damage before each use. Do not use if any part is compromised.
- Follow all manufacturer guidelines for installation and usage to prevent accidents.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Hazard Identification:**

- The OTB OVERT Front Plate Bag is designed for military and tactical use. Improper use may lead to injury.
- The mesh material allows for drainage but may not provide complete protection against sharp objects or abrasive surfaces.

- **Avoiding Hazards:**

- Do not overload the bag beyond its designed capacity.
- Ensure that all attachments and accessories are securely fastened before use.
- Be cautious when using the bag in wet or slippery conditions to prevent falls.
- Regularly check and maintain all components, including straps and buckles, to ensure they are functioning correctly.

- **AgeSpecific Warnings:**

- This product is intended for adult use only. It is not suitable for children.

## Instructions for Installation and Usage

- **Installation:**

1. Ensure the area is clear and free of obstructions before installing the plate bag.
2. Attach the plate bag to the carrier using the provided First Spear TUBES™ or ITW NEXUS Buckles.
3. Adjust the shoulder straps for a secure and comfortable fit.

- **Usage:**

- Always wear the plate bag over appropriate clothing to prevent chafing and discomfort.
- When using the bag in a tactical environment, ensure that all equipment is securely attached to the MOLLE fields and Velcro areas.
- For communication needs, route cables through the designated openings to avoid snagging.
- If using the bag in water, ensure that it is securely fastened and that all items are properly stowed.

to prevent loss.

## **Disposal Instructions**

- Dispose of the product responsibly. Do not throw it away with regular household waste.
- If the product is damaged or no longer usable, consider recycling or using designated disposal services for tactical gear.

## **Contact Information for Further Support**

For any further inquiries or support regarding the OTB OVERT Front Plate Bag, please refer to the manufacturer's contact details provided with your product.

Remember, safety is paramount. Ensure you follow all instructions carefully and stay informed about any safety updates related to your product. Thank you for your attention to these guidelines, and we wish you safe and effective use of your OTB OVERT Front Plate Bag.
