

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

277 FURY MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

ULTRA™ MICROMETER SEATER DIES Safety Instruction Guide

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES by Forster Products, Inc. These reloading dies are designed to help you create highquality, concentric rounds with precision. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure you are familiar with all safety protocols related to reloading ammunition.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when reloading.
- Keep your workspace clean and organized to minimize risks of accidents.
- Store all reloading components, including dies, in a secure location out of reach of children.
- Regularly check for recalls or safety updates regarding your reloading equipment on the EU Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper use of the die may lead to injury or damage to the firearm.
 - Ensure that the die is compatible with your specific cartridge before use.
- **Avoiding Hazards:**
 - Always ensure that the die is properly installed before use.
 - Do not exceed the recommended load specifications for your ammunition.
 - Keep fingers and other body parts away from moving parts during operation.
- **AgeSpecific Warnings:**
 - This product is intended for use by individuals aged 18 and older.
 - Ensure that inexperienced users are supervised by a qualified adult.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is securely mounted to your workbench.
- Insert the ULTRA™ MICROMETER SEATER DIE into the press according to the manufacturer's instructions.
- Tighten the Forster Cross Bolt Die Locking Ring to secure the die in place.

2. Usage:

- Adjust the micrometer to the desired bullet seating depth. The ULTRA™ die allows for adjustments from .0005 inch to .001 inch increments.
- Insert a cartridge case into the shell holder of the press.
- Place the bullet on top of the cartridge case.
- Pull the handle of the press to seat the bullet into the case.
- Check the seating depth with a caliper to ensure it meets your specifications.
- If changing bullets, simply dial back to your previous recorded setting for quick adjustments.

Disposal Instructions

- Dispose of any used or damaged reloading dies in accordance with local regulations.
- Do not throw away reloading components in regular household waste.
- Check with local waste management for proper disposal methods for metal and other materials.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the manufacturer's website or customer service for assistance. Always ensure that you have the model number and details of your product at hand for efficient support.

By following these safety instructions, you can ensure a safe and effective reloading experience with the ULTRA™ MICROMETER SEATER DIES. Always prioritize safety and stay informed about best practices in ammunition reloading.
