Absolutely Essential For Accurate, Safe, Chamber Work

FORSTER SAAMI RIMLESS HEADSPACE GAUGES The Forster Headspace Gauges are precision instruments designed to help gunsmiths and firearm enthusiasts accurately measure the headspace of rifle chambers, ensuring firearms operate safely and reliably. Proper headspace is critical for preventing malfunctions such as misfires, case ruptures, or excessive wear, which can compromise both performance and safety. These gauges are indispensable when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Engineering: Machined to exacting SAAMI specifications, these gauges provide accurate measurements to verify that a firearm's chamber meets industry standards. Variety of Gauges: Available in "Go," "No-Go," and "Field" configurations, each gauge serves a specific purpose: Go Gauge: Confirms the minimum chamber size, ensuring the firearm will chamber and fire a cartridge safely. No-Go Gauge: Checks that the chamber does not exceed the maximum recommended headspace; the bolt should not close on this gauge. Field Gauge: Used to determine the absolute maximum safe headspace; if the bolt closes on this gauge, the firearm is considered unsafe to shoot. Durable Construction: Crafted from high-grade steel and hardened for longevity, these gauges withstand repeated use without compromising accuracy. Specifications: Material: Hardened steel Dimensions: Specific to each caliber and gauge type Compliance: Manufactured to SAAMI specifications Customer Insights: Customers commend the Forster Headspace Gauges for their precision and reliability. The clear differentiation between "Go," "No-Go," and "Field" gauges allows users to perform comprehensive headspace assessments confidently. The durable construction ensures that the gauges maintain their integrity and accuracy over time, even with frequent use. Users also appreciate the wide range of calibers available, making it easy to find the appropriate gauge for various firearms. Incorporating the Forster Headspace Gauges into your gunsmithing toolkit ensures that your rifle chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [FORSTER PRODUCTS, INC. 6.5 GRENDL FIELD GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 430102691
- Mfr. No.: HG65GRENF
- Cartridge: 6.5 Grendel
- Colour: Steel
- Height: 0.43"
- Length: 1.34"
- Material: Steel
- Model Number: 6.5 Grendel Field
- Style: Field Gauge
- Weight: 0.06 lbs

- Width: 0.43"
- Delivery weight: 0.032kg
- Shipping height: 152mm
- Shipping width: 25mm
- Shipping length: 89mm
- UPC: 757253991080

Forster SAAMI Rimless Headspace Gauges Safety Instruction Guide

Introduction

Thank you for choosing the Forster SAAMI Rimless Headspace Gauges. These precision instruments are essential for accurately measuring the headspace of rifle chambers, ensuring the safe and reliable operation of firearms. This guide provides important safety instructions and information to help you use the product effectively while adhering to the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the Forster Headspace Gauges are used only by individuals who are knowledgeable about firearms and gunsmithing.
- Always handle the gauges with care to avoid damaging them or compromising their accuracy.
- Keep the gauges out of reach of children and unauthorized persons to prevent misuse.
- Regularly inspect the gauges for signs of wear or damage. Do not use damaged gauges.
- Follow all local laws and regulations regarding firearms and gunsmithing practices.

Specific Safety Precautions for Use

- **Proper Handling:** Always handle the gauges with clean hands to avoid contamination. Do not touch measuring surfaces with fingers.
- **Measurement Process:** Use the gauges according to the manufacturer's instructions. Ensure that the firearm is unloaded before measuring.
- **Go Gauge:** Use this gauge to confirm the minimum chamber size. Ensure the firearm chambers and fires a cartridge safely.
- **NoGo Gauge:** This gauge checks that the chamber does not exceed maximum recommended headspace. The bolt should not close on this gauge.
- **Field Gauge:** If the bolt closes on this gauge, the firearm is considered unsafe to shoot. Do not use the firearm in this condition.
- **Environmental Conditions:** Store and use the gauges in a clean, dry environment to prevent rust and damage.

Instructions for Installation and Usage

1. **Preparation:** Ensure the firearm is completely unloaded. Remove any ammunition from the area.
2. **Select the Correct Gauge:** Choose the appropriate gauge based on the caliber of the firearm you are measuring.
3. **Insert the Gauge:** Carefully insert the Go Gauge into the chamber. Ensure it is fully seated.
4. **Check for Fit:** Attempt to close the bolt on the Go Gauge. If the bolt closes, the chamber is within safe limits.
5. **Use the NoGo Gauge:** Replace the Go Gauge with the NoGo Gauge. Attempt to close the bolt. If the bolt does not close, the chamber is acceptable.
6. **Field Gauge Check:** Finally, use the Field Gauge. If the bolt closes on this gauge, do not use the firearm.
7. **Cleaning:** After use, clean the gauges with a soft cloth to remove any debris or moisture. Store them in a protective case.

Disposal Instructions

- Dispose of the Forster Headspace Gauges responsibly. If the gauges are damaged or no longer usable, do not discard them in regular waste.
- Check local regulations for proper disposal methods for metal products.

- Consider recycling the gauges if possible, as this helps reduce environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the Forster SAAMI Rimless Headspace Gauges, please refer to the manufacturer's website or contact their customer service for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your Forster Headspace Gauges. Your safety and the proper functioning of your firearms are of utmost importance. Always prioritize safety in your gunsmithing practices.
