[Rifle Parts](#) > [Build Kits](#) > [Handguards & Rails](#)

## Not Your Average Handguard

The ATLAS S-ONE is the newest addition to the Aero Precision Handguard lineup. Machined from 6061-T6 Aluminum, the S-ONE line of handguards are designed with size and weight in mind, providing the perfect handguard for your lightweight build. Aero's proprietary ATLAS attachment system is a durable and dependable mounting platform, maintaining a slim profile while still providing the strength and stability customers have grown to love from Aero Precision handguards. Actual Handguard Lengths: 7.3", 9.3", 10.3", 12.7", 15" -- Aero Precision rail lengths measure from end to end. This is the point of contact at the receiver to the end of the last picatinny slot at the muzzle. Available in M-LOK profiles with 7.3", 9.3", 10.3", 12.7" and 14.94 (Actual Length 15") options. ATLAS The new Aero Taper Lock Attachment System (ATLAS) is both functional and aesthetically pleasing. It features 2 mirrored tapered locking nuts that provide evenly distributed clamping pressure across a custom engineered barrel nut with use of a turnbuckle screw. A ratcheting detent further secures the design while providing positive registration during installation. By design, the even pressure of the ATLAS system avoids distortion of the handguard often seen with current applications during installation. All hardware mounting parts are included with the purchase of an ATLAS Handguard. **LIGHTWEIGHT BY DESIGN M-LOK**  
Handguard Weights: 7.3" - 4.86 oz / 9.3" - 5.47 oz / 10.3" - 6.0 oz / 12.7" - 7.00 oz / 15" - 7.95 oz Mounting Hardware Weight: 1.9 oz (same across all S-ONE Handguard options) FEATURES: Front and rear picatinny rail Eliminated center of top rail for weight reduction Indexing grooves in 12:00 position for positive grip control Quick disconnect sling socket at the 3, 6 and 9 o'clock positions Compatible with low profile gas blocks 1.3" Inside diameter 1.5" Outside diameter Compatible with mil-spec AR15 upper receivers and barrels NOT Compatible with M4E1 Enhanced Upper Receivers ATLAS Handguards are designed to match seamlessly with Aero's M4E1 Threaded Upper Receivers. Additionally, they are compatible with any Mil-Spec AR-15 upper receivers as well. However, they may not be compatible with billet upper receivers due to indexing tabs. Save when you buy them as a combo. Please note: The ATLAS Handguards are NOT compatible with Aero's M4E1 Enhanced Upper Receiver.

# Safety Instruction Guide for ATLAS SONE MLOK Free Floating Handguard for AR15

## Introduction

Thank you for choosing the ATLAS SONE MLOK Free Floating Handguard for AR15. This guide provides essential safety instructions to ensure the safe and effective use of your handguard. Please read this document carefully before installation and use.

## General Safety Guidelines

- **Product Safety:** Ensure that all components of the handguard are intact and free from damage before use.
- **Enhanced Recalls:** Regularly check for any recall notices related to this product and follow the instructions provided.
- **Online Shopping:** If purchased online, ensure that the seller complies with EU safety regulations.
- **Special Consumer Focus:** Keep this product out of reach of children and ensure that it is used only by individuals familiar with firearm safety.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point for assistance.
- **Rapid Alerts:** Stay informed about product safety updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Installation:** Always follow the installation instructions carefully to avoid improper attachment that could lead to accidents.
- **Compatibility:** Ensure that the handguard is compatible with your specific AR15 model. It is not compatible with M4E1 Enhanced Upper Receivers.
- **Weight Limitations:** Be aware of the weight of the handguard and ensure your firearm can accommodate it without affecting balance or handling.
- **Inspection:** Periodically inspect the handguard for any signs of wear or damage, especially after extensive use.
- **Sling Attachment:** Use only compatible slings and attachment points to avoid unexpected detachment during use.

## Instructions for Installation and Usage

1. **Preparation:** Gather all necessary tools, including a torque wrench and any other specified tools for installation.
2. **Remove Existing Handguard:** If applicable, safely remove the existing handguard from your AR15 following standard firearm safety protocols.
3. **Install Barrel Nut:**
  - Use provided hardware to attach the custom engineered barrel nut securely.
  - Ensure that the barrel nut is torqued to the manufacturer's specifications.
4. **Attach Handguard:**
  - Align the handguard with the barrel nut and secure it using the ATLAS attachment system.
  - Ensure that the locking nuts are evenly tightened to avoid distortion.
5. **Check Stability:** After installation, check the stability of the handguard by applying gentle pressure. It should not move or shift.
6. **Final Inspection:** Before using your firearm, conduct a final inspection to ensure all components are secure and functioning properly.

## Disposal Instructions

- Dispose of packaging materials in accordance with local waste management regulations.
- If the handguard needs to be disposed of, follow local guidelines for disposal of aluminum and plastic components.

## Contact Information for Further Support

For any questions or concerns regarding the ATLAS SONE MLOK Free Floating Handguard, please refer to the designated support channels provided by the manufacturer.

By following these guidelines and precautions, you can ensure a safe and enjoyable experience with your ATLAS SONE handguard. Thank you for your attention to safety!
