## FRONT OVERT PLATE BAG (LARGE) - BLACK

[Home](#)

OTB OVERT Front Plate Bag The LV/119 System The LV/119 SYSTEM is a family of products that work together to give end-users the ability to scale their equipment to their current needs. The fact that this is a cohesive system means that end-users are able to mix and match accessories in most cases. For example: One could take a C O V E R T Front or Rear Plate bag and use it with an O V E R T Front and Rear Plate Bag. Users may cross pollinate cummerbunds, shoulder covers, and other pieces of the system. The SYSTEM encompasses many parts, some of which are currently available and some that are in development. These include Back Panels of various types, MOLLE cummerbunds, First Spear TUBES™ integrations, and different placards. Over The Beach Operations Over The Beach Operations are some of the most challenging and miserable operations that service members must endure. We are proud to bring a suite of products that directly results in improved load carriage and soldier survival during sea borne operations. The OTB product line is built with a mesh material, which allows for quick drainage of water and sea borne debris such a sand. OTB products will dry faster after exiting the water and will drain water faster and more efficiently as well. The mesh also makes the products simple to clean using fresh water after conducting operations in salt environments. The Over The Beach (OTB) O V E R T shares the same profile as the C O V E R T and O V E R T plate bags but with modifications that make it more suitable for seaborne operations. Most noticeable the bags are made primarily of a hydrophobic mesh material. The front bag features a 3 Row / 4 Column MOLLE field that doubles as a 6" x 3" Velcro Field. This may be used to attach End User Devices (EUDs), such as those made by KAGWERKS or Juggernaut Defense. The Velcro may be used to mount placards, patches, and IR identifiers. The MOLLE can also be used to mount administrative pouches, frag grenade pouches, or Personal Floatation Devices. Every front plate bag comes standard with sewn loops on the sides for attaching First Spear TUBES™ for use with our MOLLE TUBES™ Cummerbund. Placard and Chest Rig Integration. All LV/119 Plate Bags offer placard and chest rig integration via removable 1-Inch ITW NEXUS Buckles. These clips are removable, allowing users to reduce the signature of the plate bag if it is being worn under a cover shirt or being utilized in a low-profile role. The OTB series of products offers a specific OTB Placard that can button into the front bag for added security when jumping into the water. The OTB plate bag is still compatible with our normal placard offerings as well as the Micro Fight Chest Rig Chassis. Push To Talk Support. Each O V E R T front plate bag comes standard with a PTT/Porkchop Loop on either side. Communication Cable Routing. The Modern Warfighter and Law Enforcement Officer has a radio. To date, the majority of manufacturers have not taken end-user communications needs in to their design considerations - we endeavor to break that paradigm. The O V E R T front bag offers open shoulders to facilitate commo cable routing inside the plate bags and over the shoulders. It also offers small routing points by the 1-Inch ITW NEXUS buckles on the chest - easily accommodating PTT cable routing. Plate Fitment. The carrier was designed to fit United States Standard Issue SAPI cut plates, but it will fit other cuts as well as long as they fit within the specifications listed below. The bags were built to accommodate "thicker" plates, but they will not fit plates do not fall within the measurements listed. Medium -10" x 12.5" Large - 10.25" x

# OTB OVERT Front Plate Bag Safety Instruction Guide

## Introduction

Thank you for choosing the OTB OVERT Front Plate Bag by Spiritus Systems. This product is designed to enhance your load carriage capabilities and ensure your safety during operations. This safety instruction guide provides essential information on the safe use, installation, and disposal of your plate bag in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always inspect the plate bag before each use for any signs of damage or wear.
- Ensure that all components are securely attached before wearing the plate bag.
- Familiarize yourself with the product features and functionalities detailed in this guide.
- Use the plate bag only for its intended purpose as specified by the manufacturer.
- Keep the product out of reach of children and individuals who may not understand its use.
- Be aware of your surroundings when wearing the plate bag, especially in crowded or confined spaces.

## Specific Safety Precautions for Use

- **Hydrophobic Mesh Material:** The bag is made from a hydrophobic mesh material that aids in quick drainage. Ensure the bag is completely dry before storage to prevent mold and mildew.
- **Weight Distribution:** When loading the bag with equipment, ensure even weight distribution to maintain balance and comfort.
- **Communication Equipment:** Use the designated cable routing for communication devices to avoid tangling or snagging during use.
- **PTT Loop:** Ensure the Push To Talk (PTT) loop is securely fastened to prevent loss during operations.
- **Compatibility with Plates:** The bag is designed to fit United States Standard Issue SAPI cut plates. Ensure your plates meet the specified dimensions for a proper fit:
  - Medium: 10" x 12.5"
  - Large: 10.25" x 13.25"
  - Extra Large: 11" x 14.00"
  - Thickness: Maximum of 1.20"
- **Environmental Conditions:** Avoid using the plate bag in extreme weather conditions that may compromise its integrity or your safety.

## Instructions for Installation and Usage

1. **Inspect the Product:** Before use, check for any damage or wear. Do not use if any issues are found.
2. **Fitting the Plate:**
  - Open the front compartment of the plate bag.
  - Insert the plate ensuring it fits snugly within the specified dimensions.
  - Close the compartment securely.
3. **Adjusting Straps:**
  - Adjust the shoulder straps and cummerbund for a comfortable fit.
  - Ensure that all buckles are securely fastened.
4. **Attaching Accessories:**
  - Use the MOLLE field to attach any additional pouches or accessories.
  - Ensure that all attachments are secured and do not obstruct movement.
5. **Communication Setup:**
  - Route communication cables through the designated openings.
  - Ensure that the PTT loop is accessible and secure.

**6. Wearing the Plate Bag:**

- Put on the plate bag and adjust it for comfort.
- Ensure that it does not impede your movement or visibility.

**7. PostUse Care:**

- Rinse the bag with fresh water after exposure to saltwater or debris.
- Allow it to dry completely before storage.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations regarding textile and plastic waste.
- Do not burn the product as it may release harmful substances.
- If the product is no longer usable, consider recycling components where applicable.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the safety and usage of the OTB OVERT Front Plate Bag, please refer to the manufacturer's contact resources or your point of purchase.

By following these safety instructions, you can ensure a safe and effective experience with your OTB OVERT Front Plate Bag. Thank you for your attention to these guidelines. Stay safe!
