

LIVE PILOT FINISH CHAMBER REAMER - MANSON PRECISION 8.6 BACKOUT REMOVABLE PILOT FINISHER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

Cuts A Smooth, Precise Chamber With Less Chance Of Rifling Damage

Removable (live) pilot greatly reduces the risk of scratching the lands when cutting the chamber to final dimensions, so you get the best possible chambering job for maximum accuracy. Snug-fitting pilot helps provide extra-stable "live center" alignment to maintain proper chamber-to-bore alignment. Precision ground from high speed M7 tool steel for smooth, clean cutting and maximum service life. Includes one pilot for caliber listed.

LIVE PILOT FINISH CHAMBER REAMER MANSON PRECISION 8.6 BACKOUT REMOVABLE PILOT FINISHER Safety Instruction Guide

Introduction

Thank you for choosing the LIVE PILOT FINISH CHAMBER REAMER by Manson Precision. This guide provides essential safety instructions and usage information to ensure safe and effective operation of the product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the reamer is used only for its intended purpose as described in this manual.
- Always wear appropriate personal protective equipment (PPE) such as safety goggles and gloves when operating the reamer.
- Keep the workspace clean and free of hazards to prevent accidents.
- Ensure that all tools and equipment used alongside the reamer are in good condition and suitable for the tasks being performed.
- Store the reamer in a safe place, out of reach of children and vulnerable individuals.
- Regularly inspect the reamer for signs of wear or damage. Do not use if damaged.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Sharp edges: The cutting edges of the reamer can cause cuts or lacerations.
 - Flying debris: Chips and particles may be ejected during use.
 - Improper alignment: Misalignment can lead to inaccurate cuts and potential injury.
- **Avoiding Hazards:**
 - Always ensure the reamer is securely held and properly aligned before operation.
 - Do not exceed the recommended cutting speed or force.
 - Avoid wearing loose clothing or jewelry that could become caught in the reamer.
 - Ensure that bystanders are at a safe distance during operation.

Instructions for Installation and Usage

1. Installation:

- Ensure that the reamer is compatible with your machinery.
- Securely attach the reamer to the machine's drive shank, ensuring it is tightly fitted.
- Check that the pilot is properly installed and locked in place.

2. Usage:

- Before starting, ensure the workspace is clear and that you have all necessary tools at hand.
- Start the machine at a low speed to ensure the reamer is functioning correctly.
- Gradually increase the speed as necessary, monitoring for any irregularities.
- Maintain a steady and controlled feed rate to ensure smooth cutting.
- After completing the task, turn off the machine and allow the reamer to come to a complete stop before removing it.

Disposal Instructions

- Dispose of the reamer and any associated materials in accordance with local regulations.
- Do not dispose of the reamer in regular household waste if it is damaged or contains hazardous materials.
- Consider recycling options for the metal components of the reamer.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and usage of this product, please contact the manufacturer directly. Ensure that you have the product details at hand for efficient assistance.

By following these guidelines, you can ensure a safe and effective experience with the LIVE PILOT FINISH CHAMBER REAMER. Always prioritize safety and adhere to best practices to mitigate risks associated with the use of this tool. Thank you for your attention to these important safety instructions.
