

FULL LENGTH SIZING DIES - FORSTER PRODUCTS, INC. 8.6MM BLACKOUT FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die.

Attributes

- Name: [FORSTER PRODUCTS, INC. 8.6MM BLACKOUT FULL LENGTH SIZING DIE](#)

Safety Instruction Guide for FULL LENGTH SIZING DIES

Introduction

Thank you for choosing the Forster Products, Inc. Full Length Sizing Die for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your reloading die. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that the reloading die is used only for its intended purpose.
- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Keep the workspace clean and organized to prevent accidents.
- Store the reloading die in a secure location away from children and pets.
- Regularly inspect the die for any signs of wear or damage before use.
- Follow local laws and regulations regarding reloading and ammunition production.

Specific Safety Precautions for Use

- Do not exceed the manufacturer's recommended specifications for cartridge loads.
- Avoid using damaged or worn cases, as they may cause malfunctions or accidents.
- Ensure proper alignment of the die with the reloading press to prevent misfires or injuries.
- Keep hands and clothing clear of moving parts during operation.
- Be cautious of hot surfaces; dies may become hot during use.
- If you experience any unusual noises or resistance while using the die, stop immediately and inspect for issues.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is securely mounted to a stable surface.
- Insert the Full Length Sizing Die into the reloading press according to the manufacturer's instructions.
- Tighten the locking ring to secure the die in place without overtightening.

2. Usage:

- Prepare your cases by cleaning and inspecting them for damage.
- Adjust the die height according to the specifications for your specific cartridge.
- Place the case into the shell holder of the reloading press.
- Operate the press handle smoothly and steadily to size the case.
- After sizing, remove the case and inspect it for proper sizing and any defects.
- Repeat the process for each case as needed.

Disposal Instructions

- Dispose of any damaged or wornout reloading dies in accordance with local regulations.
- Do not throw away reloading materials or components in regular trash; check for local recycling or hazardous waste disposal options.
- Ensure that all components are disposed of safely to prevent environmental harm.

Contact Information for Further Support

For any inquiries regarding safety, usage, or support related to the FULL LENGTH SIZING DIES, please refer to the contact information provided on the packaging or the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Forster Full Length Sizing Die. Thank you for your attention to safety!
