

2 CAVITY PISTOL BULLET MOLDS - LEE PRECISION 9MM (0.356") 147GR TRUNCATED CONE DOUBLE CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

All molds for pistol calibers are double cavity to speed casting. All Lee mould blocks are made from aluminum because of the exceptional moulding qualities. The mould cavities are CNC machined for unmatched roundness and size control. Most bullets from Lee moulds can be used as cast without sizing. Handles and sprue plate are included.

Attributes

- Name: [LEE PRECISION 9MM \(0.356"\) 147GR TRUNCATED CONE DOUBLE CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 430108469
- Mfr. No.: 92043
- Bullet Style: -
- Bullet Weight (Grains): 147
- Caliber: 9mm
- Cavities: 2
- Diameter (in): 0.356
- Delivery weight: 0.396kg
- Shipping height: 51mm
- Shipping width: 66mm
- Shipping length: 269mm
- UPC: 734307920432

Safety Instruction Guide for 2 Cavity Pistol Bullet Molds

Introduction

Thank you for choosing the 2 Cavity Pistol Bullet Molds by Lee Precision. This guide provides essential safety instructions to ensure the safe use of this product. Please read the instructions carefully before using the product.

General Safety Guidelines

- Ensure that the molds are used in a wellventilated area to avoid inhalation of fumes or dust.
- Always wear appropriate personal protective equipment (PPE) including safety goggles, gloves, and a dust mask when handling and using the molds.
- Keep the molds out of reach of children and unauthorized users.
- Regularly inspect the molds for any signs of damage or wear before use.
- Follow all local laws and regulations regarding the casting and use of ammunition.

Specific Safety Precautions for Use

- **Heat Safety:** The molds can become extremely hot during use. Always use heatresistant gloves and tools when handling the molds after casting.
- **Lead Exposure:** When casting bullets, there is a risk of lead exposure. Always work in a wellventilated area and avoid eating or drinking in the work area.
- **Burn Hazards:** Molten lead is hazardous. Avoid contact with skin and ensure that all flammable materials are kept away from the casting area.
- **Proper Storage:** Store molds in a dry place to prevent rust and deterioration. Avoid stacking heavy items on top of the molds.
- **Emergency Procedures:** In case of an accident, such as burns or lead exposure, seek medical attention immediately.

Instructions for Installation and Usage

1. Setup:

- Place the mold on a stable, heatresistant surface.
- Ensure that the mold is clean and free of any debris before use.

2. Melting Lead:

- Use a lead melting pot that is appropriate for the amount of lead you will be using.
- Heat the lead to the recommended temperature, ensuring that it is fully melted before pouring.

3. Pouring Lead:

- Carefully pour the molten lead into the mold cavities, being cautious to avoid spills.
- Allow the lead to cool and solidify completely before removing the bullets from the mold.

4. Removing Bullets:

- Once the lead has cooled, gently open the mold and remove the bullets with care.
- Inspect the bullets for any defects or irregularities.

5. Cleaning the Mold:

- After use, clean the mold with a soft cloth to remove any lead residue.
- Store the mold in a dry location to prevent corrosion.

Disposal Instructions

- Dispose of any lead waste according to local regulations. Do not dispose of lead in regular trash.
- Ensure that any used molds or materials are disposed of in a manner that does not pose a risk to the environment or public health.

Contact Information for Further Support

For safety inquiries and additional support regarding this product, please contact the manufacturer directly through their official channels.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your 2 Cavity Pistol Bullet Molds. Always prioritize safety and adhere to local regulations when using this product. Thank you for your attention to these important guidelines.
