

2 CAVITY PISTOL BULLET MOLDS - LEE PRECISION 500 S&W (0.501") 350GR ROUND W/FLAT NOSE DOUBLE CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

All molds for pistol calibers are double cavity to speed casting. All Lee mould blocks are made from aluminum because of the exceptional moulding qualities. The mould cavities are CNC machined for unmatched roundness and size control. Most bullets from Lee moulds can be used as cast without sizing. Handles and sprue plate are included.

Safety Instruction Guide for 2 Cavity Pistol Bullet Molds

Introduction

Thank you for purchasing the 2 Cavity Pistol Bullet Molds by Lee Precision. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before using the molds to understand the associated risks and safety measures.

General Safety Guidelines

- Always ensure that you are using the product in accordance with the manufacturer's instructions.
- Keep the molds out of reach of children and vulnerable individuals.
- Inspect the molds before each use for any signs of damage or wear.
- Use the molds in a wellventilated area to avoid inhaling fumes from melted materials.
- Wear appropriate personal protective equipment (PPE), including gloves and safety goggles, when handling the molds and molten lead.
- Be aware of your surroundings and ensure that the area is free from distractions while working.

Specific Safety Precautions for Use

• Hazard Identification:

- The molds can become extremely hot during use, posing a burn risk.
- Molten lead is hazardous and can cause serious injury if spilled or improperly handled.
- Sharp edges on the molds may cause cuts or abrasions.

• Avoiding Hazards:

- Always use heatresistant gloves when handling hot molds.
- Ensure that the workspace is stable and free from clutter to prevent accidents.
- Never attempt to touch or manipulate the molds until they have completely cooled.
- Use a proper lead melting pot designed for melting lead to minimize risks.

• Age and Audience Warnings:

- This product is intended for use by adults only. Keep away from children and individuals who may not understand the associated risks.

Instructions for Installation and Usage

• Installation:

- Ensure that your casting equipment is set up on a stable, heatresistant surface.
- Follow the manufacturer's guidelines for setting up the lead melting pot and ensure it is functioning correctly before use.

• Usage:

- Preheat the molds according to the manufacturer's instructions to ensure optimal casting results.
- Carefully pour molten lead into the mold cavities, ensuring not to overfill.
- Allow the lead to cool and solidify before removing the bullets from the molds.
- Use the sprue plate to cut off excess lead after cooling, following safety precautions to avoid injury.

- **PostUse Care:**

- Clean the molds after each use to prevent buildup of lead and ensure longevity.
- Store the molds in a dry, safe place when not in use.

Disposal Instructions

- Dispose of any lead waste according to local regulations. Lead is a hazardous material and must be handled with care.
- Do not dispose of lead in regular trash. Instead, contact your local waste management authority for guidance on safe disposal practices.

Contact Information for Further Support

For any safety inquiries or concerns regarding the use of this product, please refer to the manufacturer's contact information provided with your purchase. It is important to have a reliable point of contact for addressing any issues that may arise.

Please ensure to follow all guidelines and instructions provided in this safety instruction guide to ensure a safe and enjoyable experience with your 2 Cavity Pistol Bullet Molds. Thank you for your attention to safety!
