

CLASSIC BULLET SIZING KIT - LEE PRECISION .458" DIAMETER CLASSIC BULLET SIZING KIT

[Reloading](#) > [Bullet Casting](#) > [Lube & Sizer Dies](#)

Lee Bullet Sizing Kits are the fastest and easiest way to size cast bullets. Standard 7-8x14" threads fit any single stage reloading press. Bullets are pushed through the sizing die nose first, so no special nose punches are needed. Gas checks are automatically seated and crimped in place. Sized bullets are captured in the special container. Complete for one size. Press and bullet lubricant are sold separately. Special note: Intended for use on single stage presses only. The push through Punch is used in place of a Shell Holder in the Ram. Lee does not make top punches for molds. With the use of this kit, a top punch is not necessary. To crimp gas checks with the lube and size kit, first lubricate the bullets with liquid alox, push a gas check on the base of the bullet and set the bullet on the punch. When the bullet is pushed through the sizing die, the bullet will be sized, and the gas check will be crimped on. For cast bullets, you want to select a sizing kit to be .001" larger than groove diameter.

Attributes

- Name: [LEE PRECISION .458" DIAMETER CLASSIC BULLET SIZING KIT](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 430108494
- Mfr. No.: 91682
- Diameter (in): 0.458
- Delivery weight: 0.293kg
- Shipping height: 86mm
- Shipping width: 86mm
- Shipping length: 142mm
- UPC: 734307916824

Safety Instruction Guide

Introduction

Thank you for choosing the CLASSIC BULLET SIZING KIT by LEE PRECISION. This guide provides essential safety instructions and usage information to ensure your safety and the effective operation of your bullet sizing kit. Please read this guide carefully before using the product.

General Safety Guidelines

- **Product Safety:** Ensure safe use of this product by following all instructions and guidelines. This kit is designed for sizing cast bullets and should only be used with compatible reloading presses.
- **Enhanced Recalls:** Stay informed about any potential recalls of this product. If you receive a recall notice, follow the instructions provided to address any safety concerns.
- **Online Shopping:** If purchased online, ensure the seller complies with safety requirements. Verify that you are buying from a reputable source.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of reach of minors to prevent accidents.
- **EU Contact Point:** For any safety inquiries, please refer to the appropriate EU contact point or authority.
- **Rapid Alerts:** Monitor updates regarding unsafe products through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Intended Use:** This kit is designed for use on single stage reloading presses only. Do not use it with any other type of press.
- **Personal Protective Equipment:** Always wear safety glasses and gloves when using the bullet sizing kit to protect against any potential hazards.
- **Handling Bullets:** Handle bullets with care to avoid injury. Ensure that your hands are dry and free from oils or lubricants when handling.
- **Avoid Overloading:** Do not overload the sizing die. Follow the manufacturer's recommendations for bullet sizing capacity.
- **Check Equipment:** Regularly inspect your reloading press and bullet sizing kit for any signs of wear or damage. Do not use damaged equipment.
- **Gas Checks:** Ensure that gas checks are properly seated to avoid misfires or accidents during the sizing process.

Instructions for Installation and Usage

1. Setup:

- Secure the single stage reloading press to a stable work surface.
- Ensure the press is clean and free from debris before installation.

2. Installation of the Sizing Kit:

- Attach the bullet sizing die to the press using the standard 7/8x14" threads.
- Ensure the die is tightened securely to prevent movement during operation.

3. Preparing the Bullets:

- Lubricate the cast bullets with liquid alox before sizing to ensure smooth operation.
- Select a sizing kit that is .001" larger than the groove diameter of the bullets you are sizing.

4. Using the Sizing Kit:

- Place a gas check on the base of the bullet.
- Set the bullet on the pushthrough punch.
- Operate the press to push the bullet through the sizing die. The bullet will be sized, and the gas check will be crimped in place.

5. PostUse:

- After sizing, remove the container holding the sized bullets carefully.
- Clean the sizing die and press after use to maintain optimal performance.

Disposal Instructions

- Dispose of any waste materials, including used bullets and gas checks, in accordance with local regulations.
- Do not dispose of the bullet sizing kit in regular household waste. Follow your local disposal guidelines for hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the CLASSIC BULLET SIZING KIT, please refer to the appropriate resources or authorities for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your CLASSIC BULLET SIZING KIT. Always prioritize safety and adhere to the guidelines provided.
