

CLASSIC BULLET SIZING KIT - LEE PRECISION .459" DIAMETER CLASSIC BULLET SIZING KIT

[Reloading](#) > [Bullet Casting](#) > [Lube & Sizer Dies](#)

Lee Bullet Sizing Kits are the fastest and easiest way to size cast bullets. Standard 7-8x14" threads fit any single stage reloading press. Bullets are pushed through the sizing die nose first, so no special nose punches are needed. Gas checks are automatically seated and crimped in place. Sized bullets are captured in the special container. Complete for one size. Press and bullet lubricant are sold separately. Special note: Intended for use on single stage presses only. The push through Punch is used in place of a Shell Holder in the Ram. Lee does not make top punches for molds. With the use of this kit, a top punch is not necessary. To crimp gas checks with the lube and size kit, first lubricate the bullets with liquid alox, push a gas check on the base of the bullet and set the bullet on the punch. When the bullet is pushed through the sizing die, the bullet will be sized, and the gas check will be crimped on. For cast bullets, you want to select a sizing kit to be .001" larger than groove diameter.

Attributes

- Name: [LEE PRECISION .459" DIAMETER CLASSIC BULLET SIZING KIT](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 430108496
- Mfr. No.: 91672

CLASSIC BULLET SIZING KIT LEE PRECISION .459" DIAMETER

Introduction

Thank you for choosing the CLASSIC BULLET SIZING KIT from LEE PRECISION. This product is designed to size cast bullets quickly and efficiently. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in the product manual.
- Always work in a wellventilated area when using the bullet sizing kit and any associated lubricants.
- Keep the kit and all components out of reach of children and vulnerable individuals.
- Regularly inspect the kit for any signs of damage or wear. Do not use if damaged.
- Follow all local laws and regulations regarding the use of reloading equipment and materials.

Specific Safety Precautions for Use

• Hazard Identification:

- The bullet sizing process involves the use of metal components. Handle with care to avoid cuts or injuries.
- Lubricants may be flammable. Keep away from heat sources and open flames.

• Avoiding Hazards:

- Always wear safety goggles to protect your eyes from potential debris.
- Use gloves when handling bullets and lubricants to prevent skin irritation.
- Ensure that the reloading press is securely mounted to prevent any accidents during operation.

• Age Specific Warnings:

- This product is intended for use by adults only. Keep out of reach of children.
- Do not allow inexperienced individuals to operate the bullet sizing kit without supervision.

Instructions for Installation and Usage

1. Setup:

- Ensure that your single stage reloading press is properly installed and securely mounted.
- Attach the sizing die to the press using standard 7/8x14" threads.

2. Lubrication:

- Before sizing, lubricate the bullets with liquid alox to ensure smooth operation.

3. Sizing Process:

- Place a bullet nosefirst into the sizing die.
- Use the pushthrough punch instead of a shell holder in the ram.
- Push the bullet through the die. The bullet will be sized, and the gas check will be crimped onto the bullet base automatically.

4. PostUsage:

- After sizing, collect the sized bullets from the special container.
- Clean the sizing die and press after use to maintain functionality.

Disposal Instructions

- Dispose of any unused or excess lubricants according to local regulations for hazardous materials.
- Ensure that all metal components are recycled or disposed of in an environmentally friendly manner.
- Do not dispose of the product in household waste. Check local guidelines for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the relevant authorities or your point of purchase. Always keep this manual for future reference.

By following these guidelines and instructions, you can ensure a safe and effective experience with your CLASSIC BULLET SIZING KIT. Thank you for prioritizing safety and compliance.
