

# CLASSIC BULLET SIZING KIT - LEE PRECISION .285" DIAMETER CLASSIC BULLET SIZE KIT

[Reloading](#) > [Bullet Casting](#) > [Lube & Sizer Dies](#)

Lee Bullet Sizing Kits are the fastest and easiest way to size cast bullets. Standard 7-8x14" threads fit any single stage reloading press. Bullets are pushed through the sizing die nose first, so no special nose punches are needed. Gas checks are automatically seated and crimped in place. Sized bullets are captured in the special container. Complete for one size. Press and bullet lubricant are sold separately. Special note: Intended for use on single stage presses only. The push through Punch is used in place of a Shell Holder in the Ram. Lee does not make top punches for molds. With the use of this kit, a top punch is not necessary. To crimp gas checks with the lube and size kit, first lubricate the bullets with liquid alox, push a gas check on the base of the bullet and set the bullet on the punch. When the bullet is pushed through the sizing die, the bullet will be sized, and the gas check will be crimped on. For cast bullets, you want to select a sizing kit to be .001" larger than groove diameter.

## Attributes

- Name: [LEE PRECISION .285" DIAMETER CLASSIC BULLET SIZE KIT](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 430108503
- Mfr. No.: 90171
- Diameter (in): 0.285
- Delivery weight: 0.293kg
- Shipping height: 86mm
- Shipping width: 86mm
- Shipping length: 142mm
- UPC: 734307901714

# CLASSIC BULLET SIZING KIT SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the CLASSIC BULLET SIZING KIT by LEE PRECISION. This guide provides essential safety instructions to ensure the safe and effective use of your bullet sizing kit. Please read this document carefully before using the product.

## General Safety Guidelines

- Ensure that the product is used only as intended and according to the instructions provided.
- Keep the bullet sizing kit out of reach of children and vulnerable individuals.
- Inspect the product for any damages or defects before use. Do not use if damaged.
- Always operate the kit in a wellventilated area.
- Follow all local laws and regulations regarding bullet sizing and reloading.

## Specific Safety Precautions for Use

- Always wear appropriate eye protection when using the bullet sizing kit to prevent injury from any potential projectiles or debris.
- Use gloves to protect your hands from lubricants and other materials.
- Ensure that the reloading press is securely mounted and stable before using the bullet sizing kit.
- Do not exceed the recommended sizing specifications. Select a sizing kit that is .001" larger than the groove diameter of your cast bullets.
- Avoid using the bullet sizing kit on any other type of press than a single stage press.
- Do not attempt to modify the kit or use it for unintended purposes.

## Instructions for Installation and Usage

### 1. Preparing the Kit:

- Ensure that you have all components of the CLASSIC BULLET SIZING KIT.
- Gather necessary tools, including a single stage reloading press and bullet lubricant (sold separately).

### 2. Setting Up the Kit:

- Install the sizing die into your single stage reloading press using standard 78x14" threads.
- Ensure the die is tightened securely and positioned correctly.

### 3. Lubricating Bullets:

- Before sizing, lubricate your cast bullets with liquid alox. This will help in the sizing process and ensure proper crimping of gas checks.

### 4. Sizing Bullets:

- Push the bullet through the sizing die nose first. No special nose punches are needed.
- If using a gas check, place it on the base of the bullet before sizing.
- Insert the bullet on the punch and push it through the sizing die. The bullet will be sized, and the gas check will be crimped in place automatically.

### 5. Collecting Sized Bullets:

- Sized bullets will be captured in the special container provided with the kit. Ensure that you have a container ready to collect the bullets.

#### **6. Cleaning and Maintenance:**

- After use, clean the sizing die and any other components as necessary to maintain their condition.

## **Disposal Instructions**

- Dispose of any waste materials, such as used lubricants or damaged components, in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for recycling options or take to a designated disposal facility.

## **Contact Information for Further Support**

For any questions or concerns regarding the CLASSIC BULLET SIZING KIT, please refer to the manufacturer's contact details provided in the product packaging or visit the official website.

This safety instruction guide is designed to ensure your safety and the effective use of the CLASSIC BULLET SIZING KIT. Please keep this guide for future reference.
