

CLASSIC BULLET SIZING KIT - LEE PRECISION .243" DIAMETER

CLASSIC BULLET SIZE KIT

[Reloading](#) > [Bullet Casting](#) > [Lube & Sizer Dies](#)

Lee Bullet Sizing Kits are the fastest and easiest way to size cast bullets. Standard 7-8x14" threads fit any single stage reloading press. Bullets are pushed through the sizing die nose first, so no special nose punches are needed. Gas checks are automatically seated and crimped in place. Sized bullets are captured in the special container. Complete for one size. Press and bullet lubricant are sold separately. Special note: Intended for use on single stage presses only. The push through Punch is used in place of a Shell Holder in the Ram. Lee does not make top punches for molds. With the use of this kit, a top punch is not necessary. To crimp gas checks with the lube and size kit, first lubricate the bullets with liquid alox, push a gas check on the base of the bullet and set the bullet on the punch. When the bullet is pushed through the sizing die, the bullet will be sized, and the gas check will be crimped on. For cast bullets, you want to select a sizing kit to be .001" larger than groove diameter.

Attributes

- Name: [LEE PRECISION .243" DIAMETER CLASSIC BULLET SIZE KIT](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 430108504
- Mfr. No.: 90083
- Diameter (in): 0.243
- Delivery weight: 0.293kg
- Shipping height: 86mm
- Shipping width: 86mm
- Shipping length: 142mm
- UPC: 734307900830

CLASSIC BULLET SIZING KIT LEE PRECISION .243" DIAMETER Safety Instruction Guide

Introduction

Thank you for choosing the CLASSIC BULLET SIZING KIT by LEE PRECISION. This guide provides essential safety instructions to ensure the safe use of this product. Please read and understand these guidelines before using the kit.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as outlined in this guide.
- Always inspect the kit for any damage or wear before use. Do not use if damaged.
- Keep the kit out of reach of children and vulnerable individuals.
- Follow all local laws and regulations regarding bullet sizing and reloading.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about any product recalls or safety alerts through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using the bullet sizing kit.
- Ensure that the reloading press is securely mounted and stable before use.
- Do not exceed the recommended bullet size specified in the product guidelines.
- Use the sizing kit only with compatible reloading presses that fit the standard 78x14" threads.
- Do not attempt to modify or alter the kit in any way.
- Be cautious of sharp edges on the sizing die and other components.
- Avoid wearing loose clothing or jewelry that could get caught in moving parts.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary components, including the CLASSIC BULLET SIZING KIT, reloading press, and bullet lubricant.
- Ensure your workspace is clean and organized.

2. Setting Up the Kit:

- Attach the sizing die securely to your single stage reloading press using the standard 78x14" threads.
- Ensure the sizing die is properly aligned with the press ram.

3. Lubricating Bullets:

- Before sizing, lubricate the bullets with liquid alox to facilitate smooth sizing and crimping of gas checks.

4. Sizing Process:

- Insert a cast bullet nose first into the sizing die.
- Use the pushthrough punch in place of a shell holder to guide the bullet through the die.
- As the bullet is pushed through, it will be sized, and the gas check will be crimped on automatically.

5. Capturing Sized Bullets:

- Sized bullets will be collected in the special container provided with the kit.
- Ensure to check the container regularly to avoid overflow.

6. PostUsage:

- After use, clean the sizing die and components to prevent buildup of residue.
- Store the kit in a dry and secure location away from children.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Recycle materials where possible, following local recycling guidelines.

Contact Information for Further Support

For any questions or concerns regarding the CLASSIC BULLET SIZING KIT, please refer to the manufacturer's contact information provided with your product.

Thank you for your attention to these safety instructions. Enjoy using your CLASSIC BULLET SIZING KIT responsibly and safely!
