

6 CAVITY HANDGUN BULLET MOLDS - LEE PRECISION 44 CALIBER (.430") 310 GR ROUND NOSE 6 CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

Machined Aluminum Mold Blocks. Hard Anodized Sprue Plate. Rust resistant aluminum blocks. Lee Precision does not recommend the use of any spray type mold release products in their bullet molds. The use of such products may result in a build-up of the release product in the bullet mold cavity, reducing the diameter of the bullets cast from the treated mold. Instead, Lee Precision recommends smoking the mold with a wooden match, beeswax candle or a butane lighter as described in their provided bullet mold instructions.

Attributes

- Name: [LEE PRECISION 44 CALIBER \(.430"\) 310 GR ROUND NOSE 6 CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 430108508

Safety Instruction Guide for 6 Cavity Handgun Bullet Molds

Introduction

Thank you for choosing the 6 Cavity Handgun Bullet Molds by Lee Precision. This guide provides essential safety instructions and guidelines to ensure the safe use of the product. Please read this manual carefully before using the bullet mold.

General Safety Guidelines

- Always ensure that the product is used in accordance with the manufacturer's instructions.
- Be aware of the potential hazards associated with using bullet molds, including burns, cuts, and exposure to lead.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bullet mold for any signs of wear or damage before use.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- **Heat Protection:** The mold can become extremely hot during use. Always wear heatresistant gloves when handling the mold.
- **Lead Exposure:** Lead is a toxic substance. Ensure proper ventilation in your workspace and avoid inhaling fumes. Always wash your hands after handling lead.
- **Sprue Plate Caution:** The sprue plate is sharp. Handle it with care to avoid cuts.
- **Mold Release:** Do not use spraytype mold release products, as they may cause buildup and affect the mold's performance. Instead, smoke the mold using a wooden match, beeswax candle, or butane lighter.
- **Proper Casting Practices:** Follow the recommended casting practices to ensure safety and quality.

Instructions for Installation and Usage

1. **Preparation:** Before use, clean the mold with a suitable solvent to remove any manufacturing residues.
2. **Smoking the Mold:** Light a wooden match or beeswax candle and gently smoke the interior of the mold cavities. This will help in the easy release of the bullets.
3. **Heating the Mold:** Preheat the mold on a hot plate or over the furnace to ensure even temperature distribution.
4. **Pouring Lead:** Carefully pour molten lead into the mold cavities, ensuring that the lead does not overflow.
5. **Cooling:** Allow the lead to cool and solidify before opening the mold. This will prevent deformation of the bullets.
6. **Removing Bullets:** Once cooled, gently open the mold and use a suitable tool to remove the bullets.
7. **Maintenance:** After use, clean the mold thoroughly and store it in a dry place to prevent rust and corrosion.

Disposal Instructions

- Dispose of any lead waste in accordance with local regulations regarding hazardous materials.
- Do not dispose of the bullet mold in regular household waste.
- Contact your local waste management authority for proper disposal guidelines.

Contact Information for Further Support

- For any questions or concerns regarding the product, please refer to the manufacturer's website or customer service for assistance.

By following these guidelines, you can ensure the safe and effective use of your 6 Cavity Handgun Bullet Molds. Thank you for your attention to safety and compliance with these instructions.
