

# 6 CAVITY HANDGUN BULLET MOLDS - LEE PRECISION 38 CALIBER (.358") 148GR WAD CUTTER NOSE 6 CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

Machined Aluminum Mold Blocks. Hard Anodized Sprue Plate. Rust resistant aluminum blocks. Lee Precision does not recommend the use of any spray type mold release products in their bullet molds. The use of such products may result in a build-up of the release product in the bullet mold cavity, reducing the diameter of the bullets cast from the treated mold. Instead, Lee Precision recommends smoking the mold with a wooden match, beeswax candle or a butane lighter as described in their provided bullet mold instructions.

## Attributes

- Name: [LEE PRECISION 38 CALIBER \(.358"\) 148GR WAD CUTTER NOSE 6 CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 430108510
- Mfr. No.: 90294
- Bullet Style: Wad Cutter (WC)
- Bullet Weight (Grains): 148
- Caliber: 38 Caliber
- Cavities: 6
- Diameter (in): 0.358
- Delivery weight: 0.591kg
- Shipping height: 48mm
- Shipping width: 109mm
- Shipping length: 343mm
- UPC: 734307902940

# Safety Instruction Guide for 6 Cavity Handgun Bullet Molds

## Introduction

Thank you for choosing the 6 Cavity Handgun Bullet Molds by Lee Precision. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the bullet molds.

## General Safety Guidelines

- Ensure that the product is used only as intended and in accordance with the instructions provided.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage to the mold before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform to stay informed about product safety.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - The molds are made of machined aluminum and have a hard anodized finish. Handle them with care to avoid cuts or injuries.
  - The use of spraytype mold release products is not recommended as it may cause a buildup of the release product, affecting bullet quality.
- **Safety Precautions:**
  - Always wear appropriate personal protective equipment (PPE), such as safety glasses and heatresistant gloves, when using the molds.
  - Ensure that the work area is wellventilated to avoid inhaling fumes from melted lead or other materials.
  - Do not leave the molds unattended while in use, as they can reach high temperatures.
  - Use caution when handling hot molds to prevent burns.

## Instructions for Installation and Usage

- **Installation:**
  - Ensure that the mold is clean and free of debris before use.
  - Check that the sprue plate is securely attached and functioning correctly.
- **Usage Instructions:**
  - Preheat the mold using a suitable heat source before pouring lead to ensure proper bullet formation.
  - Smoke the mold with a wooden match, beeswax candle, or butane lighter to facilitate bullet release. Avoid using spraytype mold release products.
  - Pour the lead into the mold cavities carefully to avoid spills.
  - Allow the bullets to cool in the mold before opening to prevent deformation.
  - Inspect the bullets after casting for any defects and ensure they meet the desired specifications.

## **Disposal Instructions**

- Dispose of any waste materials, including lead and aluminum, in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for recycling options in your area.

## **Contact Information for Further Support**

For safety inquiries or additional support, please reach out to the manufacturer or your local safety authority. Ensure to keep the product documentation for reference.

Thank you for following these safety instructions. Your adherence to these guidelines will help ensure a safe and effective experience with your 6 Cavity Handgun Bullet Molds.
