

6 CAVITY HANDGUN BULLET MOLDS - LEE PRECISION 45 CALIBER (.452") 200GR SEMI WADCUTTER NOSE 6 CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

Machined Aluminum Mold Blocks. Hard Anodized Sprue Plate. Rust resistant aluminum blocks. Lee Precision does not recommend the use of any spray type mold release products in their bullet molds. The use of such products may result in a build-up of the release product in the bullet mold cavity, reducing the diameter of the bullets cast from the treated mold. Instead, Lee Precision recommends smoking the mold with a wooden match, beeswax candle or a butane lighter as described in their provided bullet mold instructions.

Attributes

- Name: [LEE PRECISION 45 CALIBER \(.452"\) 200GR SEMI WADCUTTER NOSE 6 CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 430108511

Safety Instruction Guide for 6 Cavity Handgun Bullet Molds

Introduction

Thank you for choosing the 6 Cavity Handgun Bullet Molds by Lee Precision. This guide provides essential safety instructions to ensure the safe and effective use of your bullet molds. Please read this guide thoroughly before use.

General Safety Guidelines

- Always ensure that your work area is clean and free from hazards.
- Use protective gear such as safety glasses and gloves when operating the mold.
- Keep the molds out of reach of children and vulnerable individuals.
- Regularly inspect the mold for any signs of damage or wear.
- Report any unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

- **Product Safety:** Ensure the mold is used only for casting bullets as intended. Do not use the mold with any spraytype mold release products, as these can build up and affect the mold's performance.
- **Enhanced Recalls:** Stay informed about any product recalls. Check the EU Safety Gate platform for updates.
- **Online Shopping:** If purchased online, ensure the seller complies with safety regulations.
- **Vulnerable Groups:** Keep the molds and all related tools away from children and individuals who may not understand the hazards involved.

Instructions for Installation and Usage

1. Preparation:

- Ensure the work area is wellventilated.
- Gather all necessary tools and materials before starting.

2. Smoking the Mold:

- To prepare the mold for use, smoke it using a wooden match, beeswax candle, or butane lighter. This will help create a nonstick surface for bullet casting.

3. Casting Bullets:

- Heat the mold to the appropriate temperature.
- Pour the molten lead into the cavities of the mold carefully.
- Allow sufficient time for the lead to cool and solidify before opening the mold.

4. PostUse Care:

- Clean the mold thoroughly after each use to prevent buildup and ensure longevity.
- Store the mold in a dry place to minimize the risk of rust and damage.

Disposal Instructions

- Dispose of any lead waste according to local regulations.

- Do not throw the mold in regular trash. Follow your local guidelines for disposing of metal products.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with your product.

By following these safety instructions, you can ensure a safe and enjoyable experience with your 6 Cavity Handgun Bullet Molds. Always prioritize safety and compliance with local regulations. Thank you for your attention to these important guidelines.
