# BREECH LOCK PISTOL CARBIDE 4DIE SETS LEE PRECISION .45 ACP Safety Instruction Guide

## Introduction

Thank you for purchasing the BREECH LOCK PISTOL CARBIDE 4DIE SETS from Lee Precision. This guide provides important safety instructions and guidelines to ensure safe and effective use of the product. Please read this manual carefully before use.

## General Safety Guidelines

- Always handle all reloading equipment with care and respect.
- Ensure that you are in a wellventilated area when reloading ammunition.
- Keep all tools and components away from children and unauthorized users.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves.
- Be aware of your surroundings and ensure that the area is free of distractions while reloading.
- Regularly check for product recalls or safety alerts on the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the dies are compatible with the .45 ACP cartridge before use.
- Do not exceed the recommended load data provided in the instructions.
- Inspect all components for signs of wear or damage before use.
- Always use the Universal Shell Holder included in the set to ensure proper fit and function.
- When using the Powder Thru Expanding Die, do not exceed the recommended powder charge.
- Ensure that the bullet seating depth is within safe limits as specified in the load data.
- Store the dies and all reloading components in a dry, secure location.

## Instructions for Installation and Usage

### 1. Installation of Die Set:

- Begin by securely mounting your reloading press according to the manufacturer's instructions.
- Install the Carbide Full Length Sizing Die in the press first, ensuring it is tightened securely.
- Next, install the Bullet Seating Die and the Powder Thru Expanding Die, following the same procedure.
- Finally, install the Factory Crimp Die.

### 2. Usage Instructions:

- Prepare your workspace by organizing all necessary tools and materials.
- Refer to the provided load data for your specific .45 ACP ammunition.
- Follow these steps to reload ammunition:
  - Resize the cartridge cases using the Carbide Full Length Sizing Die.
  - Expand the case mouth using the Powder Thru Expanding Die.
  - Measure and insert the appropriate amount of powder using the Powder Dipper.
  - Seat the bullet to the desired depth using the Bullet Seating Die.
  - Apply a factory crimp using the Factory Crimp Die to ensure proper bullet retention.
- After reloading, inspect each cartridge for consistency and quality.

## **Disposal Instructions**

- Dispose of all reloading components, including spent primers and excess powder, in accordance with local regulations.
- Do not dispose of hazardous materials in regular trash. Instead, check with local waste management authorities for proper disposal methods.
- Recycle packaging materials whenever possible to reduce environmental impact.

## **Contact Information for Further Support**

For any questions or concerns regarding the BREECH LOCK PISTOL CARBIDE 4DIE SETS, please refer to the manufacturer's contact details provided in the product packaging.

## **Conclusion**

Following these guidelines will help ensure safe and effective use of your BREECH LOCK PISTOL CARBIDE 4DIE SETS. Always prioritize safety and compliance with local regulations when reloading ammunition. Thank you for choosing Lee Precision.
