# BREECH LOCK PISTOL CARBIDE 4DIE SET SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the Lee Precision Breech Lock Carbide 4Die Set for your reloading needs. This product is designed to enhance your reloading experience while ensuring safety and efficiency. Please read this safety instruction guide carefully to ensure proper and safe use of the product.

## General Safety Guidelines

- Always wear appropriate safety gear, including safety glasses and hearing protection, when reloading ammunition.
- Keep the reloading area clean and organized to prevent accidents.
- Store all components, including powders and primers, in a cool, dry place away from direct sunlight and heat sources.
- Read and understand all instructions and safety warnings before using the product.
- Ensure that all tools and equipment are in good working condition before use.
- Keep the product and all reloading components out of reach of children and unauthorized users.

## Specific Safety Precautions for Use

- **Carbide Dies:** Handle carbide dies with care. Avoid dropping or striking them, as they can chip or break.
- **Powder Handling:** Always follow the manufacturer's guidelines for powder handling. Use only the recommended powders for your specific caliber.
- **Primers:** Exercise caution when handling primers. Store them in a secure location and avoid exposing them to moisture or extreme temperatures.
- **Bullet Seating:** Ensure that bullets are seated properly and at the correct depth to prevent malfunction.
- **Crimping:** Use the Factory Crimp Die to ensure proper crimping of cartridges. An improper crimp can lead to ammunition failure.
- **Inspection:** Regularly inspect your reloaded ammunition for any signs of damage or defects before use.

## Instructions for Installation and Usage

### 1. Setup:

- Ensure your reloading press is securely mounted and stable.
- Install the Carbide Full Length Sizing Die into the press according to the manufacturer's instructions.
- Use the Universal Shell Holder to hold the cartridge case during resizing.

### 2. Resizing:

- Insert the cartridge case into the shell holder.
- Raise the ram to engage the die and resize the case.
- Remove the resized case and inspect it for any defects.

### 3. Expanding:

- Install the Powder Thru Expanding Die.
- Insert the resized case into the shell holder and raise the ram to expand the case mouth.

### 4. Seating:

- Install the Bullet Seating Die.
- Place a bullet on the expanded case mouth and raise the ram to seat the bullet to the desired depth.

#### **5. Crimping:**

- Install the Factory Crimp Die.
- Insert the seated cartridge and raise the ram to apply a proper crimp.

#### **6. Loading:**

- Follow the load data provided with the die set to ensure safe and effective ammunition loading.

#### **7. Cleaning:**

- Clean the dies after use to prevent buildup of residue and ensure longevity.

## **Disposal Instructions**

- Dispose of any unused or outdated reloading materials in accordance with local regulations.
- Do not dispose of hazardous materials, such as powders and primers, in regular trash. Contact your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries or support regarding safety or product usage, please refer to the manufacturer's contact details provided with your product packaging.

By following these guidelines, you can ensure a safe and enjoyable reloading experience with the Lee Precision Breech Lock Carbide 4Die Set. Always prioritize safety and consult the appropriate resources if you have any questions or concerns.
