

RIFLE FACTORY CRIMP DIES - LEE PRECISION 35 WHELEN CUSTOM FACTORY CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Lee Factory Crimp Die crimps the bullet in place more firmly than any other tool Tests demonstrate that even bullets which have no crimp groove will shoot more accurately A firm crimp improves accuracy because pressure must build to a higher level before the bullet begins to move. This higher start pressure insures a more uniform pressure curve and less velocity variation Features a collet that squeezes the case mouth into the crimping groove for a firm hold Shellholder not included Fits all 7/8"-14 reloading presses

Attributes

- Name: [LEE PRECISION 35 WHELEN CUSTOM FACTORY CRIMP DIE](#)
- Manufacturer: [LEE PRECISION](#)

RIFLE FACTORY CRIMP DIES LEE PRECISION 35 WHELEN CUSTOM FACTORY CRIMP DIE Safety Instruction Guide

Introduction

Thank you for choosing the Lee Precision 35 Whelen Custom Factory Crimp Die. This product is designed to provide a firm crimp on your ammunition, enhancing accuracy and performance. To ensure your safety and the optimal use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Follow all safety instructions provided with this product to prevent accidents and injuries.
- Always use the product in accordance with the manufacturer's guidelines.
- Keep the product out of reach of children and individuals who are not trained in reloading.
- Regularly inspect the product for wear and damage. Do not use if any part is compromised.
- Store the product in a dry and secure location to prevent unauthorized access.
- Be aware of local laws and regulations regarding the use of reloading equipment and ammunition.

Specific Safety Precautions for Use

- Ensure that you are using the die with the appropriate reloading press (7/8"14).
- Always wear safety glasses when reloading ammunition to protect your eyes from potential debris.
- Handle all components with care to avoid accidental discharge or damage.
- Avoid working in a cluttered or distracting environment. Maintain a clean workspace.
- Do not exceed recommended load data when reloading ammunition.
- If you experience any malfunctions or issues while using the die, cease operation immediately and consult the manufacturer or a qualified technician.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Remove the shellholder from the press if it is installed.
- Screw the Lee Factory Crimp Die into the press using the 7/8"14 thread.
- Adjust the die to the desired position, ensuring it is securely fastened.

2. Usage:

- Prepare your cases by ensuring they are clean and free from any obstructions.
- Insert a case into the shellholder and raise the ram of the press to bring the case into contact with the die.
- Slowly lower the ram to allow the collet to squeeze the case mouth into the crimping groove.
- Once the crimp is applied, lower the ram completely and remove the crimped case.
- Repeat the process for additional cases as needed.

Disposal Instructions

- Dispose of any unused components and packaging in accordance with local waste disposal regulations.
- Do not dispose of reloading materials in regular trash. Follow specific guidelines for hazardous materials if applicable.

- Recycle any metal components where possible, adhering to local recycling regulations.

Contact Information for Further Support

For any inquiries or concerns regarding the use of the Lee Precision 35 Whelen Custom Factory Crimp Die, please refer to the manufacturer's website or contact their customer service.

Conclusion

Your safety is paramount when using reloading equipment. By following the instructions and guidelines in this document, you can ensure a safe and effective reloading experience with the Lee Precision 35 Whelen Custom Factory Crimp Die. Always prioritize safety and consult professionals if uncertain about any aspect of the reloading process. Thank you for your attention to these important safety measures.
