[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Lee Factory Crimp Die crimps the bullet in place more firmly than any other tool Tests demonstrate that even bullets which have no crimp groove will shoot more accurately A firm crimp improves accuracy because pressure must build to a higher level before the bullet begins to move. This higher start pressure insures a more uniform pressure curve and less velocity variation Features a collet that squeezes the case mouth into the crimping groove for a firm hold Shellholder not included Fits all 7/8"-14 reloading presses

This guide provides essential safety information and instructions for the safe use and handling of this product. Please read this guide carefully before use to ensure safe operation and compliance with safety regulations.

## General Safety Guidelines

- Always follow the manufacturer's instructions for use and maintenance.
- Ensure that the workspace is clean, dry, and welllit.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling the die.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform regularly.

## Specific Safety Precautions for Use

- Ensure the die is compatible with your reloading press (7/8"14).
- Do not attempt to modify or alter the die in any way.
- Always inspect the die for damage or wear before use.
- Use only the recommended cartridges (.356 Winchester, .358 Winchester) with this die.
- Avoid using the die in a manner not intended by the manufacturer.
- Be cautious when handling reloaded ammunition as it may pose risks if improperly crimped.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the crimp die to your reloading press, ensuring it is tightened properly.
- Insert the appropriate shellholder into the press (not included with the die).

### 2. Usage:

- Place a case into the shellholder.
- Adjust the die to ensure the collet is positioned correctly over the case mouth.
- Slowly operate the press handle to engage the die and crimp the bullet.
- Check the crimp on the bullet visually and by feel to ensure it is secure.
- Repeat the process for additional cartridges, maintaining consistent pressure.

### 3. PostUsage:

- Clean the die after use to remove any residue or debris.
- Store the die in a safe, dry place away from moisture and extreme temperatures.

## **Disposal Instructions**

- Dispose of any damaged or unusable dies according to local regulations.
- Do not dispose of the product in regular household waste.
- Contact your local waste management authority for proper disposal methods.
